Ikubolajeh Logan, 2017-11-22 This title was first published in 2002 Bringing together an inspiring mix of US and African contributors this book explores the dynamics of the unfolding globalized economic political socio cultural and environmental systems Featuring incisive international commentary on the causes and consequences of poverty in the Third World it presents a powerful study of the strategies by which Third World governments and civil society can overcome poverty by insinuating themselves more creatively into the global order The result is one of the defining works so far produced on the tensions between globalization and development The Fate of Third Worldism in the Middle East Rasmus C. Elling, Sune Haugbolle, 2024-01-04 In the latter half of the twentieth century a revolutionary idea promised to upend the global order Anti imperialist militancy bolstered by international solidarity would lead to not only the national liberation of oppressed peoples but universal emancipation shattering the division between the prosperous nations of the capitalist West and the poorer countries of the Global South The idea was Third Worldism and among others it inspired struggles in Iran and Palestine By the early 1980s however progressive visions of independence and freedom had fallen to the reality of an oppressive Islamic theocracy in Iran while the Palestinian Revolution had been eclipsed by civil war in Lebanon Israeli aggression and intra Arab conflict This thought provoking volume explores the dramatic decline of Third Worldism in the Middle East It reveals the lived realities of the time by focusing on the key protagonists from student activists to guerrilla fighters and from volunteer nurses to militant intellectuals and juxtaposes the Iranian and Palestinian cases to offer a riveting re examination of this defining era Ultimately it challenges us to reassess how we view the end of the long 1960s prompting us to reconsider perennial questions concerning self determination emancipation change and solidarity Contents Introduction The Transformation of Third Worldism in the Middle East Sune Haugbolle and Rasmus Elling 1 Demystifying Third World Solidarity Cuba and the Palestinian Revolution in the Seventies Sorcha Thomson 2 Nursing the Revolution Norwegian Medical Support in Lebanon as Solidarity 1976 1983 Pelle Valentin Olsen 3 Searching for Friends Across the Global South Classified Documents Iran and the Export of the Revolution in 1983 Simon Wolfgang Fuchs 4 The Gendered Politics of Dead Bodies Obituaries Revolutionaries and Martyrs between the Iranian Palestinian and Dhufar Revolutions Marral Shamshiri 5 Brothers Comrades and the Quest for the Islamist International The First Gathering of Liberation Movements in Revolutionary Iran Mohammad Ataie 6 Abu Jubran and Jabal Amil Between the Palestinian and Iranian Revolutions Nathaniel George 7 The Islamic Republic Party and the Palestinian Cause 1979 80 A Discursive Transformation of the Third Worldist Agenda Maryam Alemzadeh 8 Translation Revolutionary Praxis and the Enigma of Manuchehr Hezarkhani Nasser Mohajer and Eskandar Sadeghi Boroujerdi 9 The Front of our Friends Shu un Falastiniyya as an Archive

Food Jennifer Clapp, 2020-04-20 We all need food to survive and forty percent of the world's population relies on agriculture for their livelihood Yet control over food is concentrated in relatively few hands Turmoil in the world food economy in recent decades has highlighted a number of vulnerabilities and contradictions inherent in the way we currently organize this vital sector Extremes of both undernourishment and overnourishment affect a significant proportion of humanity And attempts to increase production through the spread of an industrial model of agriculture has resulted in serious ecological consequences The fully revised and expanded third edition of this popular book explores how the rise of industrial agriculture corporate control inequitable agricultural trade rules and the financialization

of food have each enabled powerful actors to gain fundamental influence over the practices that dominate the world food economy and result in uneven consequences for both people and planet A variety of movements have emerged that are making important progress in establishing alternative food systems but as Clapp s penetrating analysis ably shows significant challenges remain

The Other Path Hernando de Soto,1990 Uses Lima Peru as a case study and describes in absorbing detail the surprising and revolutionary world of the so called informals black marketeers who work outside the law The reason for this underground economy is the enormous complexity of Peru s legal machinery Hundreds of new regulations are passed each week and no private entrepreneur can hope to deal with the bureaucracy Through detailed field studies this book calculates the enormous economic effects of laws regulating such diverse matters as housing construction the establishment of industries public transport and trade For many readers however the greatest contribution of this book is its political analysis The author provides evidence to support his theory that Latin America is nearing the end of a stage in its history similar to the one experienced by European nations when mercantilist regimes dominated the continent between the fifteenth and nineteenth centuries He argues that Peru is already undergoing a revolutionary and irreversible process of transformation
