Science Foundations is a new series for students of foundation tier GCSE science. The series takes the form of three students texts: Biology, Chemistry, and Physics, and associated supplementary materials. The texts support all coordinated science syllabuses and are closely matched to the NEAB modular syllabus. The layout and language level of the students texts have been carefully controlled to ensure that the science is presented in an accessible and appealing way. The supplementary materials are a fully photocopiable resource for teachers containing full answers to questions, suggestions for practical activities, worksheets, and end of module tests. This evaluation pack contains a copy of the students text and supplementary materials for evaluating.

**Science Foundations: Chemistry** Jean Martin, Bryan Milner, 2001-07-26. The new edition of Science Foundations provides comprehensive coverage of single and double award GCSE science. It is fully revised and updated to match the new GCSE specifications for teaching from September 2001. **The Scientific Foundations of Analytical Chemistry** Wilhelm Ostwald, 1900.      Foundations of Physics Robert Bruce Lindsay, Henry Margenau, 1957. A bridge between semipopular works for the general reader and technical treatises written for specialists, this excellent work discusses the foundational ideas and background of modern physics. It is not a text on theoretical physics but a discussion of the methods of physics description and construction of theory. As such, it is especially valuable for the physicist with a background in elementary calculus who is interested in the ideas which give meaning to the data and tools of modern physics.
