Displacement, and the Delusion of Development Allen F. Isaacman, Barbara S. Isaacman, 2013-04-10 Cahora Bassa Dam on the Zambezi River built in the early 1970s during the final years of Portuguese rule was the last major infrastructure project constructed in Africa during the turbulent era of decolonization Engineers and hydrologists praised the dam for its technical complexity and the skills required to construct what was then the world's fifth largest mega dam Portuguese colonial officials cited benefits they expected from the dam from expansion of irrigated farming and European settlement to improved transportation throughout the Zambezi River Valley to reduced flooding in this area of unpredictable rainfall The project however actually resulted in cascading layers of human displacement violence and environmental destruction Its electricity benefited few Mozambicans even after the former guerrillas of FRELIMO Frente de Libertação de Moçambique came to power instead it fed industrialization in apartheid South Africa Richard Roberts This in depth study of the region examines the dominant developmentalist narrative that has surrounded the dam chronicles the continual violence that has accompanied its existence and gives voice to previously unheard narratives of forced labor displacement and historical and contemporary life in the dam's shadow The End of Imagination Arundhati Roy, 2016-08-29 Five books of essays in one volume from the Booker Prize winner and one of the most ambitious and divisive political essayists of her generation The Washington Post With a new introduction by Arundhati Roy this new collection begins with her pathbreaking book The Cost of Living

prisons in places of contemplation and in our own lives from the author of Brilliant Through her evocative intertwined
histories of the penitentiary and the monastery Jane Brox illuminates the many ways silence is far more complex than any
absolute how it has influenced ideas of the self soul and society Brox traces its place as a transformative power in the
monastic world from Medieval Europe to the very public life of twentieth century monk Thomas Merton whose love for
silence deepened even as he faced his obligation to speak out against war This fascinating history of ideas also explores the
influence the monastic cell had on one of society s darkest experiments in silence Eastern State Penitentiary Conceived of by
one of the Founding Fathers and built on the outskirts of Philadelphia the penitentiary s early promulgators imagined
redemption in imposed isolation but they badly misapprehended silence s dangers Finally Brox s rich exploration of silence s
complex and competing meanings leads us to imagine how we might navigate our own relationship with silence today for the
transformation it has always promised in our own lives Brox writes beautifully Silence for her is a force of nature awe
provoking like lightning capable of electrocuting us and of illuminating the night The New York Times Book Review Silence is
