## Silent Informer:

**Silence in the Land of Logos** Silvia Montiglio, 2010-05-17 In ancient Greece the spoken word connoted power whether in the free speech accorded to citizens or in the voice of the poet whose song was thought to know no earthly bounds But how did silence fit into the mental framework of a society that valued speech so highly Here Silvia Montiglio provides the first comprehensive investigation into silence as a distinctive and meaningful phenomenon in archaic and classical Greece Arguing that the notion of silence is not a universal given but is rather situated in a complex network of associations and values Montiglio seeks to establish general principles for understanding silence through analyses of cultural practices including religion literature and law Unlike the silence of a Christian before an ineffable God which signifies the uselessness of words silence in Greek religion paradoxically expresses the power of logos for example during prayer and sacrifice it serves as a shield against words that could offend the gods Montiglio goes on to explore silence in the world of the epic hero where words are equated with action and their absence signals paralysis or tension in power relationships Her other examples include oratory a practice in which citizens must balance their words with silence in very complex ways in order to show that they do not abuse their right to speak Inquiries into lyric poetry drama medical writings and historiography round out this unprecedented study revealing silence as a force in its own right Evidence Roderick Munday, 2017 Munday's Evidence provides students with a succinct yet critical introduction to the law of evidence Vibrant and engaging this invaluable text is the ideal guide to this challenging subject Captain Marryat's novels Frederick Marryat, 1897

Snarleygow Frederick Marryat, 1883 Exclusionary Rules in Comparative Law Stephen C. Thaman, 2012-12-31 This book is a comparative study of the exclusion of illegally gathered evidence in the criminal trial which includes 15 country studies a chapter on the European Court of Human Rights and a comparative synthetic conclusion No other book has undertaken such a broad comparative study of exclusionary rules which have now become a world wide phenomenon The topic is one of the most controversial in criminal procedure law because it reveals a constant tension between the criminal court's duty to ascertain the truth on the one hand and its duty to uphold important constitutional rights on the other most importantly the privilege against self incrimination and the right to privacy in one's home and one's private communications The chapters were contributed by noted world experts on the subject for the XVIII Congress of the International Academy of Comparative Law in Washington in July 2010 Game Informer Magazine, 2009 **Novels** Frederick Marryat, 1896

**Federal Cases** ,1895      *The Lancaster Bar* ,1870      **Sounds of Silence** Ildir Peçi,2006 The subject of this thesis is the relationship between administrative supervision criminal investigation and the nemo tenetur principle The point of departure is the distinction made in Dutch law and doctrine between administrative supervision and criminal investigation Such a distinction is often made in the area of the enforcement of socio economic regulatory legislation where supervision and investigation are perceived as isolated phases of the regulatory process The supervision phase gives way to the investigation phase as soon as a suspicion that a criminal offence has been committed arises Initially one of the main arguments in favour of the distinction seems to have been that a citizen s obligation to provide information to the supervising authorities conflicts with a suspect s right to remain silent during the investigation phase Therefore the central question of this study is whether it is necessary to have a strict demarcation between administrative supervision and criminal investigation in order to better respect the nemo tenetur principle
