Bauer, Wayne Lynch, Irene McKinnon, 2000 Amphibians and reptiles herpetofauna are a significant but much neglected component of the natural economy of the province of Alberta The Amphibians and Reptiles of Alberta Second Edition continues both as a field guide and a comprehensive natural history builds on the strengths of the first with a richly illustrated text and colour photographs of the species taken by renowned wildlife photographer Wayne Lynch The Amphibians and Reptiles of Alberta First Edition won an Emerald Award for Environmental Excellence and an award from the Book Publishers Association of Alberta This second edition has been thoroughly revised and updated Nomenclature has been changed to reflect current thinking in the field New photographs have been added and maps and illustrations have been updated This is the essential reference for Alberta herpetofauna

Speaking of Animals Robert Palmatier,1995-04-30 No other nonhuman source has served as the basis for more metaphors than animals Speaking of Animals is a dictionary of animal metaphors that are current in American English It is comprehensive historical and metaphor based Each entry refers to the other dictionaries that catalog that same metaphor and the dates of first appearance in writing are supplied where possible for both the metaphor and the name of the source The main text is organized alphabetically by metaphor rather than by animal or animal behavior all the metaphors are classified according to their animal source in a list at the end of the book An animal metaphor is a word phrase or sentence that expresses a resemblance or similarity between someone or something and a particular animal or animal class True metaphors are single words such as the noun tiger the verb hog and the adjective chicken Phrasal metaphors combine true metaphors with other words such as blind tiger hog the road and chicken colonel Other animal metaphors take the form of similes such as like rats leaving a sinking ship and prickly as a hedgehog Still others take the form of proverbs such as Don t count your chickens before they hatch and Let sleeping dogs lie The horse is the animal most frequently referred to in

metaphors followed closely by the dog The Bible is the most prolific literary source of animal metaphors followed closely by Shakespeare Simon & Schuster's Guide to Pet Birds Matthew M. Vriends, 1984 Includes 206 species of cage and aviary birds all illustrated in full color with information on Classification Characteristics Habitat Distibution and Captivity David P. Badger, 1995 Showcases a select group of over fifty frogs and toads chosen for their unusual markings calls poisons or behavior and includes frogs and toads from North and South America Africa Australia Europe and Asia Garden of Paradise. Musk and the Medieval Islamic World Anya H. King, 2017-01-09 Since antiquity musk has been a valued perfume and medicine Because the musk deer only lives in Central Eurasia people in other locations had to trade for its musk For medieval Islamic civilization musk became the most important of all aromatics The musk trade thus illuminates the nature of medieval Asian trade and musk s cultural effects on the Islamic world Scent from the Garden of Paradise Musk and the Medieval Islamic World examines the history of musk from its origins in Asia to its uses in the medieval Middle East surveys the Islamic literature on musk and discusses the roles of musk in perfumery and medicine as well as the symbolic importance of musk in Islam Key to the Herpetofauna of the Continental United States and Canada Robert Powell, Joseph T. Collins, Errol D. Hooper, Jr., 2019-07-26 This profusely illustrated comprehensive key for identifying amphibians and reptiles from the continental United States and Canada incorporates a wealth of scientific findings Since the first edition was published in 1998 and the second in 2012 the number of currently recognized species of native amphibians and reptiles in the area covered by this key has increased from 545 to 634 to 685 and the number of established non native species has increased from 39 to 58 to 67 The increase in native taxa reflects the dynamic nature of modern systematics and the use of new especially molecular techniques to elucidate relationships and redefine species boundaries. The increase in non native species reflects the porosity of the North American borders when it comes to controlling animal imports The key is easy to use and illustrated with outstanding line drawings that show details of color patterns and structures used for identification To accommodate the additional taxa the number of line drawings in this third edition has increased from 257 to 279 to 295 In addition nine maps illustrate the distributions of species that have been recognized since the publication of maps in the most recent editions of the Peterson Field Guides to the reptiles and amphibians of eastern central and western North America A large number of annotations detail current taxonomic ambiguities or disagreements and the literature cited has been expanded Collectively these features enhance opportunities to teach and learn the classification and identification of amphibians and reptiles in the continental United States and Canada Biological Adaptations of Anuran Species across Diverse Habitats, Spanning Mediterranean to Desert Climates Gad Degani, 2024-03-20 The class Amphibia contains over 6 300 known species 54% of which live in the neotropical region They cannot tolerate the high salt content of sea water and are therefore the only vertebrates not to have colonized marine habitats Capula 1989 The class is divided into three orders The largest Anura is divided into approximately 30 families and more than 4 500 spe cies ranging in size from a few

millimeters to a couple of feet in length and found in nearly every niche on earth They have four limbs the hind limbs typically being larger and modified for leaping or climbing Most are external fertilizers. These species are also vocal making sounds that range from squeaks to barks In lentic environments anuran breeding occurs in water bodies ranging from ephemeral pools to large permanent lakes Richter Boix et al 2006 Most species deposit their eggs or live larvae in aquatic envi ronments these go through a larval phase tadpoles characterized by in tensive morphological transformation metamorphosis to the juvenile stage with an adult appearance they then continue growing until the re productive stage
