Creating and Capturing Value through Crowdsourcing

Christopher L. Tucci, Allan Afuah, Gianluigi Viscusi, 2018-03-16 Examples of the value that can be created and captured through crowdsourcing go back to at least 1714 when the UK used crowdsourcing to solve the Longitude Problem obtaining a solution that would enable the UK to become the dominant maritime force of its time Today Wikipedia uses crowds to provide entries for the world s largest and free encyclopedia Partly fueled by the value that can be created and captured through crowdsourcing interest in researching the phenomenon has been remarkable Despite this or perhaps because of it research into crowdsourcing has been conducted in different research silos within the fields of management from strategy to finance to operations to information systems biology communications computer science economics political science among others In these silos crowdsourcing takes names such as broadcast search innovation tournaments crowdfunding community innovation distributed innovation collective intelligence open source crowdpower and even open innovation This book aims to assemble chapters from many of these silos since the ultimate potential of crowdsourcing research is likely to be attained only by bridging them Chapters provide a systematic overview of the research on crowdsourcing from different fields based on a more encompassing definition of the concept its difference for innovation and its value for both private and public sector
