PRACTICAL NEONATOLOGY BOOK 1 ABDELHADI ABDELGABBAR ABDELHADI, 2024-01-24 Hadi Practical Neonatology a
2 book series of practical guidelines is intended to provide a structured approach to the management of neonatal conditions
which are likely to face the neonatal team It is not intended to replace textbooks or to teach the beginners in the field Prior
sound knowledge of Neonatal Medicine by the user is essential This book is the first in the series It covers aspects of

GASTROINTESTINAL NUTRITION DERMATOLOGY and SURGICAL NEWBORN challenges It is my belief that neonatal
doctors and nurses are an integrated team and any demarcation is an imaginary line The recipe of creating a backbone of
good nurses is passionate support continuous education and practical teaching at every possible opportunity Mutual trust
and appropriate delegations are crucial to the success of the team HADI PN series is written for the neonatal team and not
just for the medical staff The best way for consolidating the team knowledge and experience is bedside teaching New
methods and approaches of neonatal management are progressing but seem to slow down over the last few years This may
reflect the fact neonatal advances are approaching our era peak of what is possible Nevertheless many of our current
practices are yet to be scrutinized to fulfil the evidence based standards There is no robust verification of the evidence
behind our current practice of many routine day to day applications This include but not limited to fluid requirements
duration of antibiotics courses use of various blood products seizures pharmacological treatment and safe PaCO₂ levels I
have reviewed multiple medical and nursing guidelines from Europe North America and Australia as well as Asia South
America and Africa I integrated many of these guidelines within this book whenever they are in accord with the international
acceptable practices Feedback and suggestions are welcome and can be sent to neonatologypractical gmail com The book is
an updated version of the protocols and guidelines which I have developed during my work as Consultant Neonatologist
Some are adopted from various reputable institutes and modified to reflect the current evidence plus a slight flavour of my
experience Considerable effort has been exercised to ensure the doses of medications given in HADI PN are accurate
However further confirmation by the nursing and medical staff is advised prior to the first use of each medication HADI PN
reflects the author s own acceptable and safe practice and advice It is written with the intention of facilitating the delivery of
care to the most vulnerable newborn The publication is written bearing in mind the wide variations in the skill mix of
neonatal practitioners nurses and doctors Likewise the chall Neugeborenen-Notfälle Georg Hansmann ,2015-10-29 Im
