Practicing Ethnography In Law New Dialogues Enduring Methods:

Practicing Ethnography in Law J. Starr, M. Goodale, 2016-04-30 *Practicing Ethnography in Law* brings together a selection of top scholars in legal anthropology social sciences and law to delineate the state of the art in ethnographic research strategies Each of these original essays addresses a particular set of analytical problems and uses these problems to explore issues of ethnographic technique research methodology and the theoretical underpinnings of ethnographic legal studies Subjects explored include the relationship between legal and feminist scholarship between law and the media law and globalization and the usefulness of a wide variety of research techniques comparative linguistic life history interview and archival This volume will serve as a guide for students who are designing their own research projects for scholars who are newly exploring the possibilities of ethnographic research and for experienced ethnographers who are engaged with methodological issues in light of current theoretical developments The book will be essential reading for courses in anthropological methods legal anthropology and sociology and law

Communities of Practice and Ethnographic Fieldwork Lee Cabatingan, Susan Bibler Coutin, Deyanira Nevárez Martínez, 2024-11-20 *Communities of Practice and Ethnographic Fieldwork* offers a new perspective on how ethnography might be learned in real time through participation in a supportive community of practice It draws on the experiences knowledge and training of an interdisciplinary group of scholars who have studied legal topics ethnographically alongside and with the support of fellow ethnographers at varying stages of their careers Contributors address topics that are of interest to those who teach ethnography as well as to those who are learning this approach Such topics include ethics positionality in the field the combination of personal and professional circumstances and the process and pain of changing research topics Each chapter emphasizes the role of mentoring and collective problem solving through a lab model of fieldwork practice particularly when carrying out research with subjects and interlocutors who may have undergone trauma Written by a diverse group of scholars this volume will appeal especially to Black Indigenous and People of Color and female identifying ethnographers in a range of fields It provides a framework for how fieldwork can continue moving forward even in the most challenging of times and will be of particular interest to scholars in anthropology sociology law urban planning studies geography political science ethnic studies public policy sociolegal studies and education

Violence, Imagination, and Resistance Katrin Roots, 2023-05-25 Much of the discussion of social transformation and resistance in socio legal studies centres around the question of whether and how the law can be used to achieve practical change However the editors of this volume argue that it will never be possible to enact change through the law because it is inseparable from violence be it metaphysical social or political They posit that a just world free from oppressive power relations requires us to imagine communities where the state and its law cease to exist Contributors address the underexplored questions of what alternatives to law could look like how communities could organize their everyday lives and how they could address social and interpersonal conflicts outside of an apparatus of

violence These essays contribute to the ongoing interrogation of settler colonialism racism and structural violence in Canada by demonstrating how to expose the violence the law produces how to deconstruct law s power and finally how to identify modes of resistance that have transformative potential Exploring Law and Culture Dorothy H. Bracey,2005-11-14

Evocative and stimulating engaging and timely this small volume makes sense of the complicated and reciprocal relationship between law and culture It starts with various definitions of law and the factors that anthropologists consider when they compare legal systems Next the experiences of exemplary researchers throughout history and some of the methods they used in their discoveries are discussed Readers learn how to employ the comparative method and build a typology based on the source of a particular law by putting the world s legal system into one of three categories Western law religious law and traditional law The book also tackles important issues such as formal law versus informal law using law to legitimize power and clashing values within a single legal system Examples from fieldwork experiences and historical events offer readers a chance to see how a method has been applied or a concept developed as well as how law and culture are intertwined in the real world A Companion to Latin American Anthropology Deborah Poole,2015-12-21 Comprised of 24 newly commissioned chapters this defining reference volume on Latin America introduces English language readers to the debates traditions and sensibilities that have shaped the study of this diverse region Contributors include some of the most prominent figures in Latin American and Latin Americanist anthropology Offers previously unpublished work from Latin America scholars that has been translated into English explicitly for this volume Includes overviews of national anthropologies in Mexico Cuba Peru Argentina Ecuador Bolivia Colombia and Brazil and is also topically focused on new research Draws on original ethnographic and archival research Highlights national and regional debates Provides a vivid sense of how anthropologists often combine intellectual and political work to address the pressing social and cultural issues of Latin America Rebel Courts René Provost,2021-06-18 Warzones are sometimes described as lawless but this is rarely the case Armed insurgents often replace the state as the provider of law and justice in areas under their authority Based on extensive field work Rebel Courts offers a compelling insight into the judicial governance of armed groups a phenomenon never studied comprehensively until now **Inside Asylum Appeals** Nick Gill,Nicole Hoellerer,Jessica Hambly,Daniel Fisher,2024-08-14 Appeals are a crucial part of Europe s asylum system but they remain poorly understood Building on insights and perspectives from legal geography and socio legal studies this book shines a light on what takes place during asylum appeals and puts forward suggestions for improving their fairness and accessibility Drawing on hundreds of ethnographic observations of appeal hearings as well as research interviews the authors paint a detailed picture of the limitations of refugee protection available through asylum appeals Refugee law can appear dependable and reliable in policy documents and legal texts However this work reveals that in reality myriad social political psychological linguistic contextual and economic factors interfere with and frequently confound the protection that refugee law promises during its concrete

enactment Drawing on evidence from Austria Belgium France Germany Greece Italy and the United Kingdom the book equips readers with a clear sense of the fragility of legal protection for people forced to migrate to Europe The book will appeal to scholars of migration studies legal studies legal geography and the social sciences generally as well as practitioners in asylum law throughout Europe and beyond This book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Im Schatten der Apartheid Rita Schäfer, 2005 When Apartheid ended the structure and the character of South African women's rights organizations changed They were part of the liberation movement but after the political changes in 1994 they asked for women's rights in the new constitution They work together with the ANC government because rape and domestic violence still exist and there is no equality between men and women This study analyses what women's organizations in South Africa can do and what the background of all these different forms of violence is University of British Columbia Law Review University of British Columbia, 2016

Forthcoming Books Rose Arny, 2003 *Labor Rights and Globalization* Faina Milman-Sivan, 2006 **So Far from Allah, So Close to Mexico** Theresa Alfaro-Velcamp, 2007-07 Middle Eastern immigration to Mexico is one of the intriguing untold stories in the history of both regions In *So Far from Allah So Close to Mexico* Theresa Alfaro Velcamp presents the fascinating findings of her extensive fieldwork in Mexico as well as in Lebanon and Syria which included comprehensive data collection from more than 8 000 original immigration cards as well as studies of decades of legal publications and the collection of historiographies from descendants of Middle Eastern immigrants living in Mexico today Adding an important

chapter to studies of the Arab diaspora Alfaro Velcamp s study shows that political instability in both Mexico and the Middle East kept many from fulfilling their dreams of returning to their countries of origin after realizing wealth in Mexico in a few cases drawing on an imagined Phoenician past to create a class of economically powerful Lebanese Mexicans She also explores the repercussions of xenophobia in Mexico the effect of religious differences and the impact of key events such as the Mexican Revolution Challenging the post revolutionary definitions of mexicanidad and exposing new aspects of the often contradictory attitudes of Mexicans toward foreigners So Far from Allah So Close to Mexico should spark timely dialogues regarding race and ethnicity and the essence of Mexican citizenship **Current Law Index** ,2005 **The British**
