Retreat From Marriage Causes And Consequences:

The Retreat from Marriage Bryce J. Christensen, 1990 This study examines the social and cultural forces making marriage increasingly rare and fragile in the contemporary world Four essays together with an edited summary of debate among leading researchers help define the historical significance of current trends in family life in America Drawing from sociological statistics historical research literary criticism and philosophic reflection this book offers a wide ranging exploration of marital trends Co published with the Rockford Institute's Center on the Family in America The Abolition of Marriage Maggie Gallagher, 1996-03 This emotionally charged book shows the critical condition the institution of marriage is in and the devastating effects a broken marriage has on everyone it touches Gallagher also shows how government by making marriage legally and morally indistinguishable from cohabitation and by eliminating many legal and financial benefits previously gained through marriage has greatly contributed to its decline *The Retreat from Marriage: Causes and Consequences* Bryce J. Christensen Bryce J. Christensen, 1990 Index included Papers from a conference convened by the Rockford Institute Center on the Family in America together with summaries of the discussions **Law & Inequality**, 1993

The Ties That Bind Linda J. Waite, Christine Bachrach, The Ties That Bind was organized to review and assess the scientific evidence about the causes of trends in marriage and other forms of intimate unions The contributors address these two questions What do we know about the factors that influence the formation of marriages and other intimate unions the timing of union formation and the forms that unions take What factors explain the dramatic changes in union formation we have observed over recent decades Edited by Linda J Waite Co edited by Christine Bachrach Michelle Hindin Elizabeth Thomson and Arland Thornton **The History of Prostitution: Its Extent, Causes, and Effects Throughout the World** William W. Sanger, 1897 **Developments in Demography in the 21st Century** Joachim Singelmann, Dudley L. Poston, Jr, 2020-02-24 This book introduces demographic applications which employ current demographic concepts and theories and cutting edge methods and findings all of which have and will continue to have an impact in the broad area of social demography Through providing an introduction to new and current developments in demography methodological and statistical issues data issues issues of health aging and mortality and issues in social demography this book gives new insights into data substantive issues and methodological approaches that will assist readers in their use of demography in their research At the same time it shows demographers sociologists economists statisticians methodologists planners and marketers how they may learn and improve upon the quality and relevance of their demographic investigations now and in the future **Being Black, Living in the Red** Dalton Conley, 2010 Being Black Living in the Red is an important book In Conley's persuasive analysis the locus of current racial inequality resides in class and property relations not in the labor market This carefully written and meticulous book not only provides a compelling explanation of the black white wealth differential it also represents the best contribution to the race class debate in the past two decades William Julius Wilson

author of *When Work Disappears The World of the New Urban Poor* In *Being Black Living in the Red* Dalton Conley has taken the discussion of race and inequality into important new territory Even as income inequality is shrinking Conley shows the wealth gap endures That gap he argues lucidly explains much of the persisting two societies phenomenon it contributes significantly to inequalities in education work even family structure Those concerned about equity in America will find this book indispensable reading David Kirp author of *Our Town Race Housing and the Soul of America* With methodological sophistication Dalton Conley's well written book makes a significant contribution to our understanding of the precarious social and economic predicament that African Americans continue to experience Martin Sanchez Jankowski author of *City Bound Urban Life and Political Attitudes Among Chicano Youth* Picking up where Oliver and Shapiro *Black Wealth White Wealth* left off Conley details how and why facets of net worth cascade into long term inequalities All sides will be impressed with Conley's thorough scholarship and richly detailed analysis Troy Duster co editor of *Cultural Perspectives on Biological Knowledge* *Being Black Living in the Red* is the most convincing analysis yet of the importance of wealth for the life chances of African Americans Thanks to Conley's stunning data and adroit theoretical discussions social scientists and policymakers can no longer ignore wealth as they attempt to deal with the thorny issue of racial inequality A must read Melvin L Oliver author of *Black Wealth White Wealth A New Perspective on Racial Inequality* *Beyond Rhetoric* United States. National Commission on Children, 1991 Cross Currents Sanford N. Katz, John Eekelaar, Mavis Maclean, 2000 This unique contribution to comparative law brings together dedicated essays on a comprehensive range of issues in family law in the United States and England showing how they stand at the beginning of the new century and how they reached there This provides an unparalleled opportunity to examine how family law has reacted to a period of change in family life widely held to be without precedent The legal analyses are set within critical accounts of wider social and family policy and against a fully explored demographic background provided by leading scholars in these areas Readers will be challenged to understand the nature of contemporary family law and its possible future direction Shifting the Center Susan J. Ferguson, 1998 Presents 48 articles on the family brought together to meet four pedagogical roles to deconstruct the notion of a universal family over time and across culture to reflect cutting edge scholarship by well known family scholars to integrate race ethnicity social class gender and sexuality in the **The Retreat from Marriage and Parenthood** Sampson Lee Blair, Zheng Mu, 2025-05-28 The Retreat from Marriage and Parenthood seeks a broad examination of the retreat from marriage and parenthood Featuring diverse theoretical and methodological chapters exploring the many issues pertaining to these seismic changes the authors chronicle the many dramatic impacts from shifts in attitudes to marriage and family *Black Families* Harriette Pipes McAdoo, 1997 The Third Edition of *Black Families* explores both the historical and contemporary experiences of Black families and presents an up to date review of the literature Chronicles, 1991 *Convergence Or Divergence?*, 1994 *Social Work With African American Males* Waldo E. Johnson Jr., 2010-05-26 African American males have never

fared as poorly as they do currently on a number of social indicators They are less likely to complete high school than their white male and female or African American female peers they are more likely to exhibit depressive symptoms and they have fewer sanctioned coping strategies Arguably no other group in American society has been more maligned regularly faced with tremendous odds that uniquely threaten their existence When they do receive education mental health and physical health services it is often in correctional settings They are marginalized in public policies on secondary and higher education attainment marriage and parental expectations public welfare health housing and community development Yet they remain overlooked in health and social science research and are stereotyped in the popular media Taking a step back from the traditionally myopic view of African American males as criminals and hustlers this groundbreaking book provides a more nuanced and realistic portrait of their experiences in the world Chapter authors both established and emerging scholars of social problems relevant to African Americans offer a comprehensive overview of the social and economic data on black males to date and the significant issues that affect them from adolescence to adulthood Via in depth qualitative interviews as well as comprehensive surveys and data sets their physical mental and spiritual health and emerging family roles are considered within both individual and communal contexts Chapters cover health issues such as HIV and depression fatherhood and family roles suicide violence academic achievement and incarceration With original research and a special eye toward enhancing social work and social welfare intervention practice with this often overlooked subpopulation of American society this volume will be of great interest to researchers interested in African American issues students practitioners and policy makers
