Pop & Postfeminism Nathalie Weidhase, 2024-11-14 Nathalie Weidhase conceptualises the female dandy as a figure that simultaneously embodies and disrupts postfeminist notions of femininity including maintaining a physique conforming to contemporary beauty standards constant self surveillance and self improvement and the naturalisation of gender difference and heterosexuality She examines how music videos function as spaces in popular culture where the politics of the feminine can be articulated These spaces allow female pop stars to be valued as artists with distinct contributions to popular music Focusing on Amy Winehouse Rihanna Lady Gaga and Lana Del Rey Weidhase illuminates different characteristics of the postfeminist dandy in popular music Amy Winehouse's work makes visible the commodification of the female spectacle in popular culture highlighting how her image and persona were marketed and consumed Rihanna performs black femininity as postfeminism's abject Other Lady Gaga queers monstrous motherhood and celebrates female musical lineage Lana Del Rey's work demonstrates how whiteness operates as a canvas for postfeminist and post racial fantasies offering a platform for their deconstruction and critique In doing so Weidhase provides a comprehensive understanding of how these pop stars navigate and challenge the intricate landscape of postfeminism offering a nuanced perspective on contemporary femininity and its representations in popular culture

Expiation Drew Wagar, 2025-03-03 A hard science fiction series with a post apocalyptic fantasy feel the Shadeward Saga is set on the imaginary planet Esurio in orbit about the red dwarf Lacaille 9352 a real star just over 10 lightyears from Earth The planet is tidally locked one side always faces the star and the other is plunged into eternal darkness Only between the two extremes is life possible Long ago it was colonized but knowledge of those events has since fallen into myth and legend The whole Shadeward series is a beautiful story of love war betrayal pain and ultimately understanding and reconciliation It spans sci fi and fantasy in a twisting turning sometimes shocking tale of hidden power and murderous ambition seen through the eyes of some of the most compelling and memorable characters I've ever read The story takes you through an emotional rollercoaster never really knowing for sure who you can trust or where loyalties lie until well towards the end of the series which builds to an incredibly moving finale I haven't read many books that have brought me to tears but this did on more than one occasion Powerfully written right up to the end I will miss the many characters that I grew to love and loathe over this series Story writing at its very finest This series couldn't have ended in a much more spectacular fashion All of the strings are tied up nicely and for a story that is so epic in its scope it hits all of the right emotional beats This story has everything It is also in no uncertain terms the end of the journey Kiri Zoella and Meru won't grace another page again But with the way their tales are told I think I'm okay with that Expiation Book Four of the Shadeward Saga In the final installment of the Shadeward Saga the stakes are raised to the highest point The threat to the planet becomes imperative and a last ditched attempt to deal with the problem is compounded by the unresolved animosity between Kiri and Zoella The priestesses plot their own revenge as the nature of the power that has twisted the

course of fate on Esurio is finally revealed It becomes clear that life will soon be threatened all across Esurio and only a handful of people are able to stop the destruction Desperate voyages are undertaken in order to stave off the threat for time is now of the essence as Lacaille burns ever more fiercely in the sky above Kiri Meru and Zoella learn that sacrifices have to be made to secure the future of their planet [Finches' Clairvoyance](#) Dilip Bhattacharjee,2014-08-08 The story on clairvoyance of a pair of finches concerns a village boy to be both creative and destructive in life Mahesh an ambitious boy passing through many hurdles and deflection from main path of life finally becomes a cardiologist Then he moves to America with an intention to be a super specialist in cardiology and to do exemplary research His discovery to cure heart ailments in collaboration with an American molecular biologist Dr Rihanna originating from a tiny middle east country of terrorists whom he met incidentally in a social gathering makes a sensation throughout world Their further research project to eradicate influenza epidemic from world accidentally resulted into a biological weapon of mass killing Dr Mahesh and Dr Rihanna s romantic mission for testing the weapon over middle east successfully materialized But both of them were finally packed off by American military to a torturous prison in a remote American island By dint of sheer ingenious scientific tricks the couple arrived to take safe shelter in an opponent country They initiated behind the scene thereafter a peace treaty to be signed by two opponent countries via media of a non aligned country Thereafter their romantic life successfully bloomed into a fruit Strict secrecy is maintained about the nitty gritty of their creative and destructive research discoveries And to be conversant with the fictional secrets and about the life of scientist couple one has to explore through details given in the book

now he's starting to feel like he's the last man standing while all his friends are switching socialising for baby wipes. Sure his mates are still wide awake at 3am with a bottle in their hand but now it's for a very different reason. Dan reckons he spends enough time with spoiled brats in his day job wrangling a breakfast radio duo known as Bry Dynamite and Silly Sally. He can't understand why everyone's giving up their social lives for creatures who express themselves through loud irritating noises and bodily fluids. But at least it's giving him material for a new comedy show: Man vs Child. Then Penny, the woman who broke his heart in high school, walks back into his life. She's newly single and wants to reconnect with her old pal from French class, except now she has a one-year-old son.

No Wave Marc Masters, 2007. Flashing through New York in the late 1970s, No Wave was the ultimate anti-movement. Its bands consisted of untrained artists looking to explode, rock, and disappear before the smoke cleared. The primary perpetrators all drew on primitivism, performance art, and the avant-garde. But they were best known for short songs and even shorter life spans. No Wave traces the history of this unique movement from early pioneers like Suicide to Richard Hell to hidden treasures like Red Transistor and 8 Eyed Spy to descendents like ESG and Sonic Youth. No Wave is a comprehensive guide to a movement whose influence still resonates today.
