*Preserving South Street Seaport* James M Lindgren,2019-08-27 Preserving South Street Seaport tells the fascinating story from the 1960s to the present of the South Street Seaport District of Lower Manhattan Home to the original Fulton Fish Market and then the South Street Seaport Museum it is one of the last neighborhoods of late 18th and early 19th century New York City not to be destroyed by urban development In 1988 South Street Seaport became the city s 1 destination for visitors Featuring over 40 archival and contemporary black and white photographs this is the first history of a remarkable historic district and maritime museum Lindgren skillfully tells the complex story of this unique cobblestoned neighborhood Comprised of deteriorating 4 5 story buildings in what was known as the Fulton Fish Market the neighborhood was earmarked for the erection of the World Trade Center until New Jersey forced its placement one mile westward After Penn Station s demolition had angered many New York citizens preservationists mobilized in 1966 to save this last piece of Manhattan s old port and recreate its fabled 19th century Street of Ships The South Street Seaport and the World Trade Center became the yin and yang of Lower Manhattan s rebirth In an unprecedented move City Hall designated the museum as developer of the twelve block urban renewal district However the Seaport Museum whose membership became the largest of any history museum in the city was never adequately funded and it suffered with the real estate collapse of 1972 The city bankers and state bought the museum s fifty buildings and leased them back at terms that crippled the museum financially That led to the controversial construction of the Rouse Company s New Fulton Market 1983 and Pier 17 mall 1985 Lindgren chronicles these years of struggle as the defenders of the people oriented museum and historic district tried to save the original streets and buildings and the largest fleet of historic ships in the country from the schemes of developers bankers politicians and even museum administrators Though the Seaport Museum s finances were always tenuous the neighborhood and the museum were improving until the tragedy of 9 11 But the prolonged recovery brought on dysfunctional museum managers and indifference if not hostility from City Hall Superstorm Sandy then dealt a crushing blow Today the future of this pioneering museum designated by Congress as America s National Maritime Museum is in doubt as its waterfront district is eyed by powerful commercial developers While Preserving South Street Seaport reveals the pitfalls of privatizing urban renewal developing museum corporate partnerships and introducing a professional regimen over a people s movement it also tells the story of how a seedy decrepit piece of waterfront became a wonderful venue for all New Yorkers and visitors from around the world to enjoy This book will appeal to a wide audience of readers in the history and practice of museums historic preservation urban history and urban development and contemporary New York City This book is supported by a grant from Furthermore a program of the J M Kaplan Fund      Divided We Stand Eric Darton,2011-08-02 When the World

Trade Towers in New York City were erected at the Hudson's edge they led the way to a real estate boom that was truly astonishing *Divided We Stand* reveals the coming together and eruption of four volatile elements super tall buildings financial speculation globalization and terrorism The Trade Center serves as a potent symbol of the disastrous consequences of undemocratic planning and development This book is a history of that skyscraping ambition and the impact it had on New York and international life It is a portrait of a building complex that lives at the convergence point of social and economic realities central not only to New York City but to all industrial cities and suburbs A meticulously researched historical account based on primary documents *Divided We Stand* is a contemporary indictment of the prevailing urban order in the spirit of Jane Jacobs's mid century classic *The Death and Life of Great American Cities* Vernacular Architecture Newsletter, 1997 **Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl** Avery Library, 1996 Housing Policy Debate, 1997 **Skyscraper Rivals** Daniel Abramson, 2001 The economics of skyscraper construction and the real estate market of Wall Street are explained also included are illuminating details and anecdotes surrounding each building's history An essay by Carol Willis director of New York's Skyscraper Museum provides an introduction BOOK JACKET

*Architectural Publications Index*, 1998 **Architectural Record**, 2009 **The House Of Death (Greenwich Village, NYC)** Patrick Gunn, 2025-08-29 Discover the eerie charm of Greenwich Village through its rich history legendary architecture and ghostly tales This book explores the neighborhood's dark past focusing on the infamous House of Death where tragedy crime and spectral presence intertwine It reveals how folklore notable residents and historic buildings shape the area's haunted reputation Blending true crime art and urban legends the narrative shows how supernatural stories influence community identity culture and tourism With insights into paranormal investigations local traditions and artistic inspiration the book highlights the enduring power of ghosts and legends that continue to captivate residents and visitors alike Perfect for mystery lovers history buffs and paranormal enthusiasts it offers a compelling look at how the past haunts the present in this iconic New York City neighbourhood **Contentious City** John Mollenkopf, 2005-08-25 Few public projects have ever dealt with economic and emotional issues as large as those surrounding the rebuilding of lower Manhattan following the terrorist attack of September 11 2001 Picking up the pieces involved substantial challenges deciding how to memorialize one of America's greatest tragedies how to balance the legal claim of landowners against the moral claim of survivors who want a say in the future of Ground Zero and how to rebuild the Trade Center site while preserving the sacredness and solemnity that Americans now attribute to the area All the while the governor the mayor the Port Authority and the leaseholder competed with one another to advance their own interests and visions of the redevelopment while at least leaving the impression that the decisions were the public's to make In *Contentious City* editor John Mollenkopf and a team of leading scholars analyze the wide ranging political dimensions of the recovery process *Contentious City* takes an in depth look at the competing interests and demands of the numerous stakeholders who have sought to influence the direction of the recovery process

Lynne Sagalyn addresses the complicated institutional politics behind the rebuilding which involve a newly formed development commission seeking legitimacy a two state transportation agency whose brief venture into land ownership puts it in control of the world s most famous 16 acres of land and a private business group whose affiliation with the World Trade Center places it squarely in a fight for billions of dollars in insurance funds Arielle Goldberg profiles five civic associations that sprouted up to voice public opinion about the redevelopment process While the groups did not gain much leverage over policy outcomes Goldberg argues that they were influential in steering the agenda of decision makers and establishing what values would be prioritized in the development plans James Young a member of the jury that selected the design for the World Trade Center site memorial discusses the challenge of trying to simultaneously memorialize a tragic event while helping those who suffered find renewal and move on with their lives Editor John Mollenkopf contributes a chapter on how the September 11 terrorist attacks altered the course of politics in New York and how politicians at the city and state level adapted to the new political climate after 9 11 to win elected office Moving forward after the destruction of the Twin Towers was a daunting task made more difficult by the numerous competing claims on the site and the varied opinions on how it should be used in the future Contentious City brings together the voices surrounding this intense debate and helps make sense of the rival interests vying for control over one of the most controversial urban development programs in history A Russell Sage Foundation September 11 Initiative Volume
