Revolution And Regeneration:

Revolution Enzo Traverso, 2024-04-30 Brilliant and beautiful Now this book exists it's hard to know how we did without it China Miéville author of *October* A cultural and intellectual balance sheet of the twentieth century's age of revolutions This book reinterprets the history of nineteenth and twentieth century revolutions by composing a constellation of dialectical images Marx's locomotives of history Alexandra Kollontai's sexually liberated bodies Lenin's mummified body Auguste Blanqui's barricades and red flags the Paris Commune's demolition of the Vendôme Column among several others It connects theories with the existential trajectories of the thinkers who elaborated them by sketching the diverse profiles of revolutionary intellectuals from Marx and Bakunin to Luxemburg and the Bolsheviks from Mao and Ho Chi Minh to José Carlos Mariátegui C. L. R. James and other rebellious spirits from the South as outcasts and pariahs And finally it analyzes the entanglement between revolution and communism that so deeply shaped the history of the twentieth century This book thus merges ideas and representations by devoting an equal importance to theoretical and iconographic sources offering for our troubled present a new intellectual history of the revolutionary past *The Abbe Grégoire and the French Revolution* Alyssa Goldstein Sepinwall, 2005-03-28 In this age of globalization the eighteenth century priest and abolitionist Henri Grégoire has often been called a man ahead of his time An icon of antiracism a hero to people from Ho Chi Minh to French Jews Grégoire has been particularly celebrated since 1989 when the French government placed him in the Pantheon as a model of ideals of universalism and human rights In this beautifully written biography based on newly discovered and previously overlooked material we gain access for the first time to the full complexity of Grégoire's intellectual and political universe as well as the compelling nature of his persona His life offers an extraordinary vantage from which to view large issues in European and world history in the late eighteenth and early nineteenth centuries and provides provocative insights into many of the prevailing tensions ideals and paradoxes of the twenty first century Focusing on Grégoire's idea of regeneration that people could literally be made anew Sepinwall argues that revolutionary universalism was more complicated than it appeared Tracing the Revolution's long term legacy she suggests that while it spread concepts of equality and liberation throughout the world its ideals also helped to justify colonialism and conquest In this age of globalization the eighteenth century priest and abolitionist Henri Grégoire has often been called a man ahead of his time An icon of antiracism a hero to people from Ho Chi Minh to French Jews Grégoire has been particularly celebrated Revolution and Regeneration Peter Charles Hoffer, 1983 *Allgemeine Zeitung München*, 1878 **The Great Nation in Decline** Sean M. Quinlan, 2016-03-16 This book studies how doctors responded to and helped shape deep seated fears about nervous degeneracy and population decline in France between 1750 and 1850 It uncovers a rich and far ranging medical debate in which four generations of hygiene activists used biomedical science to transform the self sexuality and community in order to regenerate a sick and decaying nation a programme doctors labelled physical and moral hygiene Moreover it is shown how doctors imparted biomedical

ideas and language that allowed lay people to make sense of often bewildering socio political changes thereby giving them a sense of agency and control over these events Combining a chronological and thematic approach the six chapters in this book trace how doctors began their medical crusade during the middle of the Enlightenment how this activism flowered during the French Revolution and how they then revised their views during the period of post revolutionary reaction The study concludes by arguing that medicine acquired an unprecedented political social and cultural position in French society with doctors becoming the primary spokesmen for bourgeois values and thus helped to define the new world that emerged from the post revolutionary period
