Science and the Unseen World Sir Arthur Stanley Eddington, 1929 **Science and the Unseen World** Arthur S. Eddington, 1980-04-01 *Science of the Cosmos, Science of the Soul* William C. Chittick, 2013-10-01 With academic courses either encouraging commercialism or cultivating zealots Chittick states that it is impossible to understand classical Islamic texts without the years of contemplative study that are anathema to the modern education system Insisting upon a return to the ways of the ancient wisdom tradition which saw the quest for knowledge of the soul the world and God as a unifying spiritual discipline Chittick maintains that the study of Islamic texts cannot be treated separately from self understanding Fascinating radical and a true challenge to modern trends in academic study this book opens a new debate in Islamic thought
