Institutions of Literature, 1700-1900 Jon Mee, Matthew Sangster, 2022-07-21 This collection provides students and researchers with a new and lively understanding of the role of institutions in the production reception and meaning of literature in the period 1700 1900 The period saw a fundamental transition from a patronage system to a marketplace in which institutions played an important mediating role between writers and readers a shift with consequences that continue to resonate today Often producers themselves institutions processed and claimed authority over a variety of cultural domains that never simply tessellated into any unified system The collection s primary concerns are British and imperial environments with a comparative German case study but it offers encouragement for its approaches to be taken up in a variety of other cultural contexts From the Post Office to museums from bricks and mortar to less tangible institutions like authorship and genre this collection opens up a new field for literary studies

Mongrel Signatures, 2021-10-01 Mongrel Signatures reviews the Australian writer Mudrooroo s career and deals with central issues of identity authenticity and truth After 1996 academics and writers in Australia and around the world endorsed or denied Mudrooroo s Aboriginality after research had dramatically called his Indigenous identity into question There has also been a long silence among fans of Mudrooroo who has not commented publicly on his racial belonging These challenging and lively reflections by European and Australian scholars and writers are not meant to discuss whether Mudrooroo can legitimately sign his works with an Aboriginal name an essentialist and problematic view of identity and authenticity Instead they explore how Mudrooroo s writing restages the drama of subjectivity in terms of articulation rather than authentication and ask how we are to read him now in the face of current accusations and the cultural scenario of Aboriginal arts and studies The contributors in disagreement or in dialogue treat questions of identity and representation reading Mudrooroo s work through the lenses of such perspectives as psychoanalysis postmodernism postcolonialism deconstruction and queer theory The essays are designed to provoke debate and to dissolve the rigid polarities hitherto characterizing discussion of this highly influential creative artist Contributors are Clare Archer Lean Maureen Clark Graziella Englaro Eva Rask Knudsen Ruby Langford Ginibi Maggie Nolan Annalisa Oboe Wendy Pearson Lorenzo Perrona Cassandra Pybus Adam Shoemaker and Gerry Turcotte

Choreographing Copyright Anthea Kraut, 2016 Choreographing Copyright Provides a historical and cultural analysis of U S based dance makers investment in intellectual property rights In a series of case studies stretching from the late nineteenth century to the early twenty first the book reconstructs dancers efforts to win copyright protection for choreography and teases out their raced and gendered politics

Authorship Seán Burke, 1995 This reader provides the textual material for students encountering the authorship debate for the first time It outlines the issues explains central theoretical positions and summarizes the history and possible future directions of the debate Key writings on authorship are presented

 areas around the world With intensified impacts of climate and environmental change protected areas become increasingly
 important to serve as indicators of and buffers against the impacts of the disturbances Remote sensing plays an irreplaceable
 role in this frontline of challenges The subjects and contents of the articles collected in this book reflect the state of the art
 applications of remote sensing for capturing dynamics of environmental and ecological variations of the protected areas The
 examples include revealing the level growth rate trend and distribution pattern of the night time light of global protected
 areas quantifying the energy budget water cycle and carbon sink over the Three River Headwaters Region in the hinterland
 of the Tibetan Plateau monitoring wetland change in a cross boundary zone between Northeast China and the Russian Far

Band der Akten des X. Internationalen Germanistenkongresses Wien 2000 vereinigt drei literaturwissenschaftliche Sektionen. Die Sektion Geschlechterforschung und Literaturwissenschaft bietet methodologisch einen Rückblick und Ausblick auf die feministische Literaturbetrachtung und behandelt besonders Weiblichkeitsbilder in Männer- und Frauentexten, das Verhältnis von Autobiographie, Biographie und Roman unter feministischen Aspekten, das utopische Schreiben in der Frauenliteratur und das performanzpolitische Körperkonzept. In der Sektion Literatur und Psychologie wird über Fragen der Methodologie hinaus vor allem die Bedeutung der Wahrnehmungspsychologie, der Kognitionstheorie und der Freud'schen Psychoanalyse für die Literaturinterpretation diskutiert. Die besonders aktuellen Themen von Medien und Literatur sind der Einfluss der Literaturkritik, des Fernsehens auf den Literaturbetrieb, die Bedeutung der alten und neuen Medien wie Film, Hörfunk und Internet für die Literatur sowie die Frage nach dem Fortbestand traditioneller Literaturgattungen im neuen Medienzeitalter.

Yale Journal of Law & the Humanities, 1993 *Das Leben zur Kunst machen* Schamma Schahadat, 2004 Die Kunst ist die Kunst zu leben, so bestimmte 1908 das symbolistische *enfant terrible* Andrej Belyj das Wesen der Kunst und brachte damit eine Poetik des Verhaltens auf den Punkt. In Russland beginnt diese Kunst zu leben mit der Lachfolgerin Iwans des Schrecklichen, theoretisch ausformuliert wird sie dann in der Romantik und im Symbolismus. Das Buch untersucht jene Genres, die weder ganz Text noch ganz Körper sind: Lebenskunst, Lachgemeinschaften, die sich mithilfe inszenierter Gruppenveranstaltungen und semiprивater Texte als kontradiktorische oder alternative Welt zur offiziellen Welt konstituieren. Lebenwelten, die aufgrund der Macht des Wortes ex nihilo entstehen, die literarische Mystifikation, bei der zwischen Autor und Text eine zusätzliche Autorebene eingeschoben wird, den Schlüsselselbstroman, der Fakten und Fiktionen mischt und dabei das Ziel verfolgt, das eigene Leben zu finden oder zu erfinden. Dabei wird anschließend an die Moskauer Kultursemiotik und die angloamerikanische *poetics of culture* eine Theorie der Lebenskunst entwickelt.
