Clarson, John J. Fitzgerald, Micheal J. Owen, Steven S. Smith, Mark E. Van Dyke, 2007-08-16 The world wide sales of polysiloxanes or silicones at the beginning of this new millennium is approximately 10 billion per year Commercial products range from those entirely composed of silicone to products where the silicone is a low level but key component This symposium covered the recent academic and technological developments behind silicones and silicone modified materials Silicone and Silicones Eugene George Rochow, 1987 **Encyclopedia of Chemical Technology: Silicon compounds to succinic acid and succinic anhydride**, 1997 Catalyzed Direct Reactions of Silicon Kenrick M. Lewis, David G. Rethwisch, 1993 Hardbound There has

been a scarcity of authoritative published information on the direct reactions of silicon. Nevertheless the need for up to date information on the reactions and their silane products persists across a broad range of scientists. Recent progress warrants documentation of the state of the art and identification of the areas for future research. Some of the highlights of this book are: An authoritative presentation of the state of commercial practice on the direct synthesis of chlorosilanes and methylchlorosilanes in more depth and breadth than can be found elsewhere in a single volume. The use of in line FTIR for real time analysis of methylchlorosilane vapors exiting the direct reaction shortens the analysis time from 30 minutes to 20 seconds and provides information comparable to gas chromatography. Thorough discussions of the role of promoters, surface enrichment, surface composition and structure and s

Silicon-based Polymer Science John Martin Zeigler, F. W. Gordon Fearon, 1990. This book provides the first unified reference work for silicon based polymers. It brings together in one volume research on the synthesis, properties, chemistry, electronic structure, applications and technology of these materials. The volume is built around a series of critical overviews of these rapidly advancing fields and is supplemented by a substantial number of shorter papers that focus on current findings. It also provides insight into possible directions for future scientific and technological advances in the field.
