Silver Age:

On the Spirit of the Times in Russian "Silver Age" Literature and Arts Chen Xiumei, Sun Jiangwen, Wei Haiyan, 2025-03-24
The Silver Age of Russian literature and culture from the late 19th to the early 20th century was marked by a vibrant new wave of poetry that spurred widespread innovation in literature and the arts while also igniting the development of distinctive Russian religious philosophies. This book contends that the remarkable achievements of the Silver Age were deeply intertwined with the era's spirit. Literature as a reflection of the zeitgeist not only adapted to but also shaped cultural directions with sharp and profound insights thereby authentically mirroring the traits and essence of the era. The Silver Age was a period of intellectual blossoming characterized by diverse literary movements and vigorous creativity. Literary schools varied; thinkers presented unique ideas, and artists pioneered new paths, all unified in their pursuit of innovation. This era's literary and artistic figures embodied a spirit of reform and exploration, combining openness and inclusivity with theoretical and practical applications to craft a timeless cultural legacy. This era not only concluded the 19th century's Russian culture on a high note but also set a hopeful tone for the 20th century, bursting with potential like summer flowers in bloom.

Missouri's Silver Age, Collectively the entries and the illustrations shed light on the growth of enterprise in Missouri, show the impact of the individual on the developing frontier economies of the Midwest, and reveal how the production, acquisition, and possession of material goods reflected the culture and values of Americans during the 1800s. Mack provides a brief but thorough history of silversmithing in America for novice collectors and historians, detailing the various methods used in making silver and the range of styles that were popular, providing insight into the methods of training apprentices and explaining the effects of mechanization on the trade. *Film and Television Scores, 1950-1979* Kristopher Spencer, 2014-01-10
Hollywood film scores underwent a supersonic transformation from the 1950s through the 1970s. This genre-by-genre overview of film and television soundtrack music covers a period of tremendous artistic and commercial development in the medium. Film and television composers bypassed the classical tradition favored by earlier screen composers to experiment with jazz, rock, funk, and avant-garde styles. This bold approach brought a rich variety to film and television productions that often took on a life of its own through records and CDs. From Bernard Herrmann to Ennio Morricone, the composers of the Silver Age changed the way movie music was made, used, and heard. The book contains more than 100 promotional film stills and soundtrack cover art images. *The Routledge Companion to Russian Literature* Neil Cornwell, 2001
An engaging and accessible guide to Russian writing of the past thousand years, covering the entire span of Russian literature from the Middle Ages to the post-Soviet period, and exploring all the forms that have made it so famous. *Russia Abroad* Marc Raeff, 1990
The dramatic events of the twentieth century have often led to the mass migration of intellectuals, professionals, writers, and artists. One of the first of these migrations occurred in the aftermath of the Russian Revolution when more than a million Russians were forced into exile. With this book, Marc Raeff, one of the world's leading

historians of Russia offers the first comprehensive cultural history of the Great Russian Emigration He examines the social and institutional structure of the emigration and describes its rich cultural and intellectual life He points out that what distinguishes this emigration from other such episodes in European history is the extent to which the emigres succeeded in reconstituting and preserving their cultural creativity in the West The flourishing Russian communities of Paris Berlin Prague and Kharbin not only enriched Russian arts and letters but also significantly influenced the culture of their Western hosts and Raeff concludes with an assessment of their impact on the development of modern Western and Soviet culture Scribner's Monthly, an Illustrated Magazine for the People, 1874 Comic Books and Comic Strips in the United States through 2005

John Lent, 2006-04-30 This final work in John Lent's series of bibliographies on comic art gathers together an astounding array of citations on American comic books and comic strips Included in this volume are citations regarding anthologies and reprints criticism and reviews exhibitions festivals and awards scholarship and theory and the business artistic cultural legal technical and technological aspects of American comics Author John Lent has used all manner of methods to gather the citations searching library and online databases contacting scholars and other professionals attending conferences and festivals and scanning hundreds of periodicals He has gone to great length to categorize the citations in an easy to use scholarly fashion and in the process has helped to establish the field of comic art as an important part of social science and humanities research The ten volumes in this series covering all regions of the world constitute the largest printed bibliography of comic art in the world and serve as the beacon guiding the burgeoning fields of animation comics and cartooning They are the definitive works on comic art research and are exhaustive in their inclusiveness covering all types of publications academic trade popular fan etc from all over the world Also included in these books are citations to systematically researched academic exercises as well as more ephemeral sources such as fanzines press articles and fugitive materials conference papers unpublished documents etc attesting to Lent's belief that all pieces of information are vital in a new field of study such as comic art
