Similes And Their Use

Grenville Kleiser

Similes And Their Use:

Similes and Their Use Grenville Kleiser, 1925 Character, Narrator, and Simile in the Iliad Jonathan L.

Ready, 2011-04-11 Jonathan L Ready offers the first comprehensive examination of Homer's similes in the Iliad as arenas of heroic competition. This study concentrates primarily on similes spoken by Homeric characters. The first to offer a sustained exploration of such similes, Ready shows how characters are made to contest through and over simile not only with one another but also with the narrator. Ready investigates the narrator's similes as well. He demonstrates that Homer amplifies the feat of a successful warrior by providing a competitive orientation to sequences of similes used to describe battles. He also offers a new interpretation of Homer's extended similes as a means for the poet to imagine his characters as competitors for his attention. Throughout this study, Ready makes innovative use of approaches from both Homeric studies and narratology that have not yet been applied to the analysis of Homer's similes. *Finding Metaphor in Grammar and Usage* Gerard Steen, 2007 Cognitive linguists have proposed that metaphor is not just a matter of language but of thought and that metaphorical thought displays a high degree of conventionalization. In order to produce converging evidence for this theory of metaphor, a wide range of data is currently being studied with a large array of methods and techniques. *Finding Metaphor in Grammar and Usage* aims to map the field of this development in theory and research from a methodological perspective. It raises the question when exactly evidence for metaphor in language and thought can be said to count as converging. It also goes into the various stages of producing such evidence: conceptualization, operationalization, data collection, and analysis and interpretation. The book offers systematic discussion of eight distinct areas of metaphor research that emerge as a result of approaching metaphor as part of grammar or usage, language or thought, and symbolic structure or cognitive process.

Current Approaches to Metaphor Analysis in Discourse Ignasi Navarro i Ferrando, 2019-09-02 This volume takes up the challenge of surveying the present state of a variety of approaches to the identification, analysis, and interpretation of metaphor across communication channels, situational contexts, genres, and social spheres. It reflects three foremost trends of present metaphor research: namely, the communicative approach, the cognitive modelling approach, and the multimodality approach. These trends are considered as areas of research emerging on the ground of the Conceptual Metaphor Theory initiated by Lakoff. The book intends to show their concomitances as well as mark their diversifying paths. The aim is to bring about and make apparent the many connections among assumingly different trends stemming from CMT. Whereas discrepancies between communicative and conceptual perspectives might seem irredeemable, the book emphasizes and claims that the background framework of CMT provides a solid foundation for collaboration and mutual influence. Consequently, the analysis of metaphor usage in context may provide insights for cognitive modelling proposals. The analysis of cognitive configuration of conceptual domains may in turn illuminate our understanding of communicative decisions in discourse. The integration of multimodal metaphor analysis puts forward the idea that diverse modal manifestations of

metaphor reveal the symbiosis between communicative and cognitive stances The various subject areas and methodologies illuminate the scene of current research in the field The poignant contributions open far reaching avenues into the realm of human thought and discourse *The Use of Metaphors in Textproduction* Lisa Drees,2019-06-11 Essay from the year 2014 in the subject Didactics for the subject English Miscellaneous grade 1 7 University of Hildesheim language English abstract In this essay the structure traits and usage of conventional and creative metaphors shall be compared and discussed Therefore a preceding overview about the background and function of metaphors as well as the definition and development of conceptual metaphors is necessary The focus of this essay will be the use and appliance of metaphors in poetry and literature which will be exemplified in an analysis of the song The Sound of Silence by Simon Garfunkel In a short conclusion at the end of the essay all important insights shall be summarised **Apollonius Rhodius, His Figures, Syntax, and Vocabulary** Charles Jaques Goodwin,1891 *Key to the Iliad of Homer.
