Cameron, 1970 *Federal Regional Economic Development Organizations* Jean Dupuis, Canada. Library of Parliament. Parliamentary Information and Research Service, Canada. Library of Parliament. Industry, Infrastructure and Resources Division, 2011 *Regional Economic Development in the European Union and North America* Morris L. Sweet, 1999-06-30 Mainstream economists have given insufficient attention to regional and urban economics and economic geography Comparing nations in the European Union and North America this book examines government activities aimed specifically at regional economic development It provides a wide ranging consideration of numerous facets of regional economic development encompassing both national and

subnational levels Proposing that a period of economic prosperity is the best time to invest in regional development the author indicates the need for a direct role by the federal government The study is based on a review of the U S Canada and Mexico the European Union and supranational organizations such as NAFTA and the WTO and their internal impact on regions The comparison shows that the U S lags dramatically behind the European Union The EU particularly the Western European countries has long been in the forefront of regional policy and is actively formulating policy whereas the U S has no semblance of a federal regional policy Regional Economic Development in the United States: Chap. 5-8 United States.
