Assessing World Bank Support for Trade, 1987-2004 Yvonne M. Tsikata, 2006 This evaluation of the Bank s assistance on trade related issues focuses on the period between fiscal years 1987 and 2004 The majority of developing countries have significantly improved their environment for trade and economic growth following over two decades of assistance from the Bank in trade reform Arguably the developing world is more open today than at any time in recent memory Developing countries have more than doubled their exports since the mid 1980s helping many of them to grow steadily Exports and imports have risen as a share of the gross domestic product GDP across a wide range of countries fueled in part by China s remarkable trade performance and the growth in services trade Trade policies have also been significantly liberalized Average import tariffs have fallen steadily over the period although the fall in other forms of protection has been more gradual Between fiscal years 1987 and 2004 about 81 percent of total Bank commitments went to 117 countries to help them better integrate into the global economy This financing has been accompanied by a large volume of analysis in operational economic and sector work ESW research publications on trade and working papers on trade related topics

During the first phase starting in the 1980s the Bank focused largely on the traditional trade agenda related to opening up economies During the second phase from the mid to late 1990s the Bank s emphasis on trade declined although the impact of earlier trade reforms was still playing out In the third phase initiated with the collapse of the World Trade Organization WTO Seattle trade ministerial meeting in 1999 growing pressure to deliver on the Millennium Development Goals MDG and interest from development partners notably bilateral donors led the Bank to reappraise its trade activities This phase has focused on the global trading system and behind the border barriers to trade The Bank s trade activities during the period were led by a trade policy reform package supported by four components import related export related exchange rate and foreign exchange management and industrial and other supporting policies This assessment reviews project related outcomes and outputs to focus on the progress toward a more development friendly trading Recommendations include addressing poverty distributional outcomes and external shocks in a balanced approach revisiting the balance between global and country agendas and strengthening operational links on trade issues and strengthening knowledge management efforts

Regional Integration and Trade Liberalization in Sub-Saharan Africa T. Ademola Oyejide, African Economic Research Consortium, 1997 **Managing Business in Africa** John Luiz, 2006 Doing business in African countries or emerging economies requires a different set of management skills than doing business with developed nations or nations in other parts of the developing world This new title meets the growing requirements of business schools and senior students to apply and adapt generic management principles to real African circumstances to assess the risks and returns confidently so that as practitioners they can do business effectively The purpose of the book is to cover management principles which are addressed in any MBA or Executive Education or Management course with reference to Africa
