Rejection Of Consequentialism A Philosophical Investigation Rev Ed:

Taking Utilitarianism Seriously Christopher Woodard, 2019 Christopher Woodard presents a new and rich version of utilitarianism the idea that ethics is ultimately about what makes people's lives go better He launches a state of the art defence of the theory often seen as excessively simple and shows that it can account for much of the complexity and nuance of everyday ethical thought

The Republican Dilemma Lars J. K. Moen, 2024 The first chapter introduces the debate over freedom between republicans and liberals It also sketches the framework I employ throughout the book to analyse and compare republican freedom and the pure negative conception of liberal freedom The chapter ultimately shows how the book is structured so as to demonstrate how the conceptual dispute results in the republican dilemma which is also introduced in the chapter

Law, Economics, and Morality Eyal Zamir, Barak Medina, 2010 This work examines the possibility of combining economic methodology and deontological morality through explicit and direct incorporation of moral constraints into economic models

Lying, Cheating, and Stealing Stuart P. Green, 2007 This text uses the tools of moral and legal theory as a means to examine a range of specific white collar offenses It includes discussion of key moral concepts such as cheating deception and stealing

The Rejection of Consequentialism Samuel Scheffler, 1994-08-11 In contemporary philosophy substantive moral theories are typically classified as either consequentialist or deontological Standard consequentialist theories insist roughly that agents must always act so as to produce the best available outcomes overall Standard deontological theories by contrast maintain that there are some circumstances where one is permitted but not required to produce the best overall results and still other circumstances in which one is positively forbidden to do so Classical utilitarianism is the most familiar consequentialist view but it is widely

regarded as an inadequate account of morality Although Professor Scheffler agrees with this assessment he also believes that consequentialism seems initially plausible and that there is a persistent air of paradox surrounding typical deontological views In this book therefore he undertakes to reconsider the rejection of consequentialism He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes and this motivates one departure from consequentialism but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes He goes on to argue for a hitherto neglected type of moral conception according to which agents are always permitted but not always required to produce the best outcomes
