Relationship Between Scholars And Rulers In Imperial China:

Relationship Between Scholars and Rulers in Imperial China Kai-fu Tsao, 1984 The Relationship Between Scholars and Rulers in Imperial China Kai-fu Tsao, 1983-12-07 Die Unterwerfung der Welt Wolfgang Reinhard, 2016-08-09 Sie kamen, sahen und eroberten 600 Jahre lang haben Europa die Welt erkundet, unterworfen und ausgebeutet. Doch zugleich haben sie zahllose Impulse für die Entstehung unserer heutigen Welt gegeben und empfangen. Denn die europäische Expansion war keine Einbahnstraße, sondern ein jahrhundertelanger Prozess der Interaktionen. In Wolfgang Reinhards monumentalem Werk hat die Vorgeschichte der Globalisierung zu einer einzigartigen Gesamtdarstellung gefunden. Der renommierte Historiker beschreibt von den frühen Anfängen der europäischen Expansion in Antike und Mittelalter bis zu den langwierigen Dekolonisationen des 20. Jahrhunderts einen weltgeschichtlichen Vorgang von gewaltigen zeitlichen und räumlichen Dimensionen. Ob er über die Handelssysteme in Asien berichtet oder über die künstliche Welt der Plantagen mit ihren Sklaven, ökologische Folgen oder konflikthafte politische Hinterlassenschaften der europäischen Expansion, stets ist seine beeindruckend kenntnisreiche Geschichte spannend zu lesen und geprägt von dem Interesse nicht nur an den Europäern, sondern auch an den Anderen.

Tribute System and Rulership in Late Imperial China Ralph Kauz, Morris Rossabi, 2022-04-11 Demanding and offering tribute is a most common feature in human societies and nothing special to China. In the course of the development of Neolithic and later societies, social classes have developed where persons who achieved superior positions first could demand presents or tribute from neighboring societies they defeated, and then with the assistance of sturdy servants from their own people. China was certainly no exception to that principle, and one of the first terms for tax was thus gong tribute. In China's early feudatory social system, tribute was demanded from lower political entities, and the mutual political relations were already highly developed during the Zhou dynasty (1045-256 BCE). This system of inner Chinese relations became a sort of matrix when China expanded and achieved contact with countries which were more or less independent, and thus the tribute system evolved. The individual case studies in this volume focus on the latest manifestations of the tribute system in late Imperial China. *Imperial China and Its Southern Neighbours* Victor H. Mair, 2016-04-29 At a time when China's Southeast Asia relationships are undergoing profound changes, it is pleasing to have a volume which examines the interactions between China and the polities and societies to the south through time. With multiple aims of exploring the relations between northern Chinese cultures and those of the south, examining the cultural plurality of areas which are today parts of Southern China, and illuminating the relations between Sinitic and non-Sinitic societies, the volume is broad in concept and content. Within these extensive rubrics, this edited collection further interrogates the nature of Asian polities and their historiography, the constitution of Chineseness, imperial China's southern expansions, cultural hybridity, economic relations, regional systems, and ethnic interactions across East Asia. The editors Victor H. Mair and Liam C. Kelley are to be

congratulated for bringing together such a wealth of contributions offering nascent interpretations and broad overviews set within the overarching historical and contemporary contexts provided through Wang Gungwu's introduction Dr Geoffrey Wade ANU College of Asia and the Pacific Australian National University *The Making of China's Foreign Policy in the 21st century* Suisheng Zhao, 2018-02-02 This book is a study of the making of foreign policy of China a rising power in the 21st century It examines three sets of driving forces behind China's foreign policy making One is historical sources including the selective memories and reconstruction of the glorious empire with an ethnocentric world outlook and the century of humiliation at the hands of foreign imperialist powers The second set is domestic institutions and players particularly the proliferation of new party and government institutions and players such as the national security commission foreign policy think tanks media and local governments The third set is Chinese perception of power relations particularly their position in the international system and their position relations with major powers This book consists of articles from the Journal of Contemporary China

Learning to Rule Daniel Barish, 2022-02-08 In the second half of the nineteenth century local leaders around the Qing empire attempted to rebuild in the aftermath of domestic rebellion and imperialist aggression At the same time the enthronement of a series of children brought the question of reconstruction into the heart of the capital Chinese scholars Manchu and Mongolian officials and writers in the press all competed to have their ideas included in the education of young rulers Each group hoped to use the power of the emperor both his functional role within the bureaucracy and his symbolic role as an exemplar for the people to promote reform Daniel Barish explores debates surrounding the education of the final three Qing emperors showing how imperial curricula became proxy battles for divergent visions of how to restabilize the country He sheds light on the efforts of rival figures who drew on China's dynastic history Manchu traditions and the statecraft tools of imperial powers as they sought to remake the state Barish traces how court education reflected arguments over the introduction of Western learning the fate of the Manchu Way the place of women in society notions of constitutionalism and emergent conceptions of national identity He emphasizes how changing ideas of education intersected with a push for a renewed imperial center and national unity helping create a model of rulership for postimperial regimes Through the lens of the education of young emperors *Learning to Rule* develops a new understanding of the late Qing era and the relationship between the monarchy and the nation in modern China
