Relationship Management for Everyone MAYA Design, Incorporated, 2003-01-01 Relationship management is a concept that has been manipulated and twisted to a point that its value has been lost to many companies Unlike recent fads Customer Relationship Management or even the more trendy eCRM or iCRM the approach outlined in this book doesn't require a massive underlying software installation or a staff that tracks every client contact In fact this book proposes that relationship management has nothing to do with technology and everything to do with vision and helping customers achieve things that they otherwise had no hope of achieving This book makes relationship management techniques accessible to everyone The techniques are not hidden behind technology forays ivory towers or the dungeons of unfinished projects Instead the techniques are presented as series of easily digestible sections Each section fits within a traditional 101401 training structure and is reasonably self contained You can find relevant materials quickly and use the book as a handy reference
