Regional Industrial Analysis And Development:

Regional Industrial Analysis and Development Geoffrey J. D. Hewings, 2017-09-05 Originally published in 1977 This book provides an introduction to some of the more important techniques of regional analysis techniques derived from geographical regional economic and regional science theory and describes the way some of these techniques have been applied in the identification of problems development of strategy and evaluation of regional programmes The theory and applications of methods of regional analysis are integrated with the use of examples taken from the USA the UK and Canada The author introduces the problems which are encountered in the field of regional analysis describes some of the analytical tools beginning with the fundamental model of the economic base approach and then examines regional flows and the applicability of international trade theory to interregional trade Considering the shortcomings of the aggregated base approach input output analysis is also examined **Regional Industrial Analysis and Development** Geoffrey Hewings, 1977

Regional Economics Roberta Capello, 2015-11-10 The second edition of *Regional Economics* provides a comprehensive and up to date treatment of regional economics This fully revised edition includes key theoretical developments of the last ten years Topics included span from the earliest location theories to the most recent regional growth theories It is also enriched by the recent debate on smart specialization strategies recently developed by the EU for the design of new cohesion policies Key elements covered in the new edition include proximity and innovation theories the concept of territorial capital the debate on the role of agglomeration economies in urban growth This textbook is for undergraduate students in regional and urban economics as well as spatial planning courses *Optimization of Regional Industrial Structures and Applications*

Yaoguo Dang, Sifeng Liu, Yuhong Wang, 2010-11-23 Based on research projects supported by the National Natural Science Foundation of China and Nanjing University of Aeronautics and Astronautics *Optimization of Regional Industrial Structures and Applications* provides an authoritative introduction to and survey of the cutting edge research and applications in industrial structure optimization Empl **Computer and Computing Technologies in Agriculture III** Daoliang

Li, Chunjiang Zhao, 2010-04-07 This book constitutes the thoroughly refereed post conference proceedings of the Third IFIP TC 12 International Conference on Computer and Computing Technologies in Agriculture CCTA 2009 held in Beijing China in October 2009 The 80 revised papers were carefully selected from numerous submissions The papers cover a wide range of interesting theories and applications of information technology in agriculture including simulation models and decision support systems for agricultural production agricultural product quality testing traceability and e commerce technology the application of information and communication technology in agriculture and universal information service technology and service systems development in rural areas **Regions, Industries, and Heritage.** Juliane Czierpka, Kathrin Oerters, Nora

Thorade, 2016-03-21 The industrial age has proved to be a formative period for Europe Industrial heritage nowadays bears witness to the development that took place in differently structured regions This volume presents different paths of industrial

development and gives an overview of the concepts of regions used among economic social and cultural historians

Innovation Drivers and Regional Innovation Strategies M. Davide Parrilli, Rune Dahl Fitjar, Andrés Rodríguez-Pose, 2016-02-05 In the global economy regional development and innovation are increasingly an imperative to increase the competitive edge of EU economies While European regions are different in many ways the innovation capacity of regions clusters and firms is what makes them capable of building up new and diversified pathways for sustainable growth For this reason Innovation Drivers and Regional Innovation Strategies looks to analyze different knowledge drivers e g entrepreneurial or policy orientation scientific and practice based knowledge modes institutional innovation support that influence the innovative and competitive capacity of regions clusters and firms in Europe The aim of this volume is to develop an in depth understanding of these drivers and their implications for the way in which regional and cluster growth may be upgraded Innovation Drivers and Regional Innovation Strategies examines the construction of new innovation pathways for regions and clusters in different geographical contexts The main themes are cluster evolution regional innovation systems and business innovation modes and capabilities The objectives are centred on exploring the logic and mechanisms that can be activated as a means to promote innovation and competitiveness within regions and within these across and within firms Aimed at researchers and academics in the field this is a thoughtful and innovative new volume that helps define the academic debate
