## **Regional Policy:**

**Regional Policy** Ugo Fratesi, 2023-11-08 Regional policy is an essential in any government's toolkit for promoting socioeconomic prosperity. It comes in many forms and can be used to target the development of weak and stronger regions. This textbook provides comprehensive and systematic coverage of regional policy dealing with core theories and looking at contemporary challenges in practice addressing regional policy across the world. Structured in four parts, the book opens with an exploration of regional policy's characterisation, aims and rationale. The second part is devoted to issues of implementation and the instruments available to policymakers for intervention. The third part addresses regional policy evaluation as well as statistics and modelling in policymaking. Finally, the book discusses how regional policy is applied in different contexts. Each chapter contains real life examples of a regional policy topic in action and highlights supplementary topics for advanced readers. With its broad coverage of the subject, *Regional Policy: Theory and Practice* will prove a valuable resource for advanced students, researchers and practitioners in regional policy, regional economics, economic geography, planning and public policy.

**Regional Policy in Europe** S. S. Artobolevskii, 1997 Based on the author's extensive research in the field, this book analyzes regional policy for the whole of Europe. Comparing East and West, it offers a new model of regional policy and gives an overview of the direction that it may take in Europe as a whole. Topics covered include the evaluation of regional policy, its main aims, its infrastructure in Western Europe, its form in Eastern Europe and the development of regional policy from 1917 to the 1990s. The book is intended for professionals and academics working in the areas of regional studies, economics and policy studies.

**The Coherence of EU Regional Policy** John Bachtler, Ivan Turok, 2013-12-16 This book brings together a rich selection of up to date practical experience of EU regional policy from across Europe. It provides different perspectives on the design and operation of regional development strategies under the Structural Funds from people closely involved in studying, managing or advising on the process at EU, national and regional levels. It therefore offers a more comprehensive and detailed understanding of the structural policies than has been available hitherto. This will prove particularly useful to researchers, practitioners and students interested in European regional policies and processes.

*Politics of European Union Regional Policy* Ian Bache, 1998-12-01 This book provides an overview of the key developments in the politics of European Union regional policy from the creation of the EEC to the present day. The discussion of who decides what and to what effect in relation to regional policy is part of the contemporary academic debate about the nature of politics and policy making in the EU. Bache argues that no single theory can explain the complex politics of EU regional policy making. In particular, current theories pay insufficient attention to the importance of implementation in shaping policy outcomes. The book concludes that the application of different analytical tools at different stages of policy making provides the fullest picture of the politics of EU regional policy. This title is published in conjunction with UACES, the University Association for Contemporary European Studies. UACES web site can be found at [www.uaces.org](http://www.uaces.org) *Regional*

*Official Journal of the European Communities*, 1995      **Transition, Cohesion and Regional Policy in Central and Eastern Europe** John Bachtler, Ruth Downes, Grzegorz Gorzelak, 2000 The origins of this volume lie in the history of collaboration on regional development research between the editors and many of the authors over a period of ten years Through a series of international research projects conferences and seminars debating the emerging regional development challenges and regional policy responses in Central and Eastern Europe the idea of a book that would take a comprehensive systematic look at the issues was born After a decade of reform the book was conceived as an opportunity to

take stock of the regional problems and disparities associated with the transition process and regional development policy challenges confronting regional national and European policy makers     *Industrial Policies, Developments and Outlook in OECD Countries* ,1992     **Regional Policy** Norbert Vanhove,Leo Hendrik Klaassen,1980     Regional Policy Colin Mellors,1990 The European Community has committed itself to promoting economic and social cohesion across its regions Its expenditure via the structural funds for these purposes is set to double by 1993 A key component of such expenditure is the European Regional Development Fund which is receiving increasing attention from local and regional representatives and officials as well as from companies considering where to locate their businesses The integrated development operations of the EC involve important new initiatives at the local level This volume explains how the ERDF operates and its relationship to other sources of funding from the EC It offers comprehensive and up to date information in a readily accessible format Section II summarises the key EC policy documents involved and Section III gives a full listing of all the relevant documents across a range of different aspects     Who's who in Economics Mark Blaug,1986 This edition includes 337 more entries bringing the total to over 1 400 thumbnail sketches of economists who have contributed to the literature over the past three centuries     **Annual Report** European Regional Development Fund,1976     Policy and Politics ,1994
