Moss,1997      **IPCC Special Report on the Regional Impacts of Climate Change** R. T. Watson,2000      **Climate Change 2014 - Impacts, Adaptation and Vulnerability: Regional Aspects** Christopher B. Field,Vicente R. Barros,2014-12-29 This latest Fifth Assessment Report of the Intergovernmental Panel on Climate Change IPCC will again form the standard reference for all those concerned with climate change and its consequences including students researchers and policy makers in environmental science meteorology climatology biology ecology atmospheric chemistry and environmental policy      **Australasian Impacts of Climate Change** R. T. Watson,Marufu C. Zinyowera,Richard H. Moss,1998\*      **assessment of the economic impacts of climate change on agriculture in zimbabwe , Climate change information for regional impact and risk assessment** Benjamin Lamptey,Rupakumar Kolli,Mark Amo-Boateng,2023-06-06      **Regional Hydrological Impacts of Climatic Change: Hydroclimatic variability** Thorsten Wagener,Stewart W. Franks,2005      **Assessing Vulnerability to Global Environmental Change** Anthony Patt,Dagmar Schröter,Klein Richard J. T.,Anne Cristina de la Vega-Leinert,Rik Leemans,2012-05-16 Assessing the vulnerability of human populations to global environmental change particularly climate change is now the main imperative of research and international action However much of the research into vulnerability is not designed to feed directly into decision making and policy creating a gap between the knowledge created by researchers and what is required by decision makers This book seeks to rectify this problem and bridge the gap It discusses vulnerability as the central theme and brings together many different applications from disaster studies climate change impact studies and several other fields and provides the most comprehensive synthesis of definitions theories formalization and applications to date illustrated with examples from different disciplines regions and periods and from local through to regional national and international levels Case study topics cover sea level rise vulnerability to changes in ecosystem services assessing the vulnerability of human health and double exposure to climate change and trade liberalization amongst other issues Research outcomes stress that science policy dialogues must be transparent to be effective and concentrate on a mutual understanding of the concepts used A key research finding is that the most useful information for decision makers is that which shows the separate causes and drivers of vulnerability rather than presenting vulnerability in an aggregated form The book concludes with a unifying framework for analysing integrated methodologies of vulnerability assessment and guiding how research and policy can be linked to reduce vulnerability      *Berichte über Landwirtschaft* ,2003      **Berichte aus dem Institut für Meereskunde an der Christian-Albrechts-Universität Kiel** Universität Kiel.
