Extracting Honduras James J. Phillips, 2022-01-04 With a focus on Honduras James J Phillips explores the deeper causes of the massive emigration of Central Americans to the United States Going beyond the frequently given reasons for migration Phillips provides a detailed account of how the frenzied extraction of natural resources has created massive community displacement dependency poverty and vulnerability while encouraging corruption violence gang recruitment drug trafficking militarization of Honduran society and systematic repression of popular protest and resistance Highlighting how this situation is tied to the colonial or imperial extractive relationship of Honduras to the United States Phillips contends that the usual policy of development aid and investment to stem migration will only worsen the conditions that create migration With this book Phillips depicts how the Central American immigration crisis shapes life in the United States and Honduras while making clear that the effects are not what populist politics imagine
