Reinventing The Corporation Transforming Your Job And Your Company For The:

Re-inventing the Corporation John Naisbitt, Patricia Aburdene, 1985 Describes the labor shortage that will create a tight labor market for the rest of this century *Zukunftsillusionen* Holger Rust, 2009-05-20 Holger Rust gilt als der pointierteste und wirkungsvollste Kritiker der feuilletonistischen Trend und Zukunftsforschung In seiner aktuellen Expertise zu den jüngsten Angeboten der Branche unterzieht er die Methoden und Befunde der vielfältigen Trend und Zukunftsagenturen aus wissenschaftlicher wie aus wirtschaftspraktischer Perspektive einer tiefen Analyse Er kommt dabei zum Ergebnis dass die meist vollmundigen Versprechungen weder methodologisch noch inhaltlich fundiert sind In einer dezidierten Analyse diagnostiziert er vor allem im Hinblick auf die Anwendbarkeit der Trend und Zukunftsdiagnosen rhetorisch aufgeputzte Trivialität und strategischen Opportunismus Die so genannten Megatrends sind wie der Autor nachweist durch die Analysen öffentlicher und wissenschaftlicher Forschungsinstitutionen sattem bekannt und stehen jedem Interessenten zur freien Verfügung Die gängige Trend und Zukunftsforschung erweist sich vor diesem Hintergrund inhaltlich und methodologisch als teuer und wie die Analysen zeigen nicht selten irreführender Umweg Der Autor zeigt klare Alternativen und belegt die Stärke einer pragmatischen Soziologie für die wissenschaftliche wie die wirtschaftliche Praxis gleichermaßen

Creating the Work You Love Rick Jarow, 1995-11-01 In this unique and provocative look at work career counselor Rick Jarow argues for a return to the concept of vocation finding a calling instead of a job Traditional career guides inventory the individual skills talents

and abilities that correlate to specific existing jobs Creating the Work You Love presents a unique alternative approach using self reflective exercises based on the seven chakras to help you determine the elements you need to create a life filled with meaning and purpose Jarow believes that it is possible to live and act from the most authentic part of ourselves and to express our strongest values energies and talents through our work in the world Concentrating on the attributes associated with each of the body's energy centers or chakras Dr Jarow helps us form a bridge between our personal priorities and the external activities of the work world Once this bridge is established strategies are developed to find a career that nourishes all aspects of our lives

Finding a Solution to Leadership Niels Brabandt, 2019-10-17 Business and employee management are key subjects in business administration For decades actually for centuries there has been a discussion about how effective leadership of people or employees can be realized It has always been a major concern within market based economic systems to learn how its products and services should be designed in order to generate consumer demand That the discussion about business and employee management is more relevant than ever is linked to the fact that leadership situations are influenced by a variety of external factors They include in particular political cultural social demographic economic and technological developments It is therefore required for business and employee management to be adapted to those external framework conditions on a permanent basis In former times the assumption in mainstream leadership research was that leadership success relied on specific personal characteristics Later on the prevailing view was that the decisive factors in employee management lied in specific leadership behavior or leadership styles Today's research on leadership is dominated by situation oriented approaches providing for specific leadership concepts for specific organizational and employee related structures The present thesis is an attempt to bundle a variety of approaches to leadership with the aim of providing an overarching framework for concepts of a similar nature Therefore the leadership concept to be developed in what follows is to be characterized by the principles of holism and sustainability The first step is to present the fundamentals of leadership and management in order to introduce key terms and concepts and provide an overview of the research on leadership Chapter 3 deals with separately displaying the business and employee management approaches of various management pioneers distinguishing between early and contemporary pioneers Each approach is presented in consideration of its key elements its strengths and opportunities as well as its weaknesses and limitations The fourth chapter finally is devoted to developing a holistic and sustainable leadership concept
