Religion And Community:

Religion and Community Keith Ward, 2023 Religion is an important social force both for good and evil in the modern world This book considers the main ways in which religion and society interact and the ways in which the major world religions need to adapt themselves in the modern world **Religion, Community and Development** Gurpreet

Mahajan, Surinder S. Jodhka, 2010-06-02 Papers presented at a seminar organized at Jawaharlal Nehru University on Mar 2007 **Religion and Community**, 2000-03-02 Religion is an important social force both for good and evil in the modern

world In the final volume of his comparative theology Keith Ward considers the main ways in which religion and society interact and the ways in which the major world religions need to adapt themselves in the modern world These religions are examined as forms of social life ranging from communities which seek to renounce the world to those which seek to embody the laws of God in society those which see religions in critical dialogue with social structures and those which see religion as a primarily individual matter The ideas of eretz Yisrael the umma of Islam the Buddhist sangha the Christian church and the Hindu sampradaya are critically analysed Ward also considers the doctrine of the church in Aquinas Calvin Schleiermacher and Tillich and develops a view of the church in a global perspective by means of both a historical and thematic approach He proposes a radical vision of the church as a person affirming world transforming society in the emerging global community of many faiths and cultures The relation of religious belief and morality and the ambiguous role of religion in society is investigated and the need for a new religious paradigm is defended expressing a global perspective without insistence on uniformity **Exploring Religious Community Online** Heidi Campbell, 2005 Exploring Religious Community Online is the

first comprehensive study of the development and implications of online communities for religious groups This book investigates religious community online by examining how Christian communities have adopted internet technologies and looks at how these online practices pose new challenges to offline religious community and culture Contrasts in Religion, Community, and Structure at Three Homeless Shelters Ines W. Jindra, Michael Jindra, Sarah DeGenero, 2021-11-17 How do people in poverty and homelessness change their lives and get back on their feet Homeless shelters across the world play a huge role in this process Many of them are religious but there is a lot of diversity in faith based non profits that assist people affected by poverty and homelessness In this timely book the authors look at three homeless shelters that take more or less intensive approaches to faith community and programming In one shelter for instance residents are required to do a program of classes that includes group Bible study worship and self evaluation The other two examined are significantly less faith based but in different ways and with different structures The authors show how the three shelters tackle homelessness differently drawing on narrative biographical interviews and case studies with residents interviews with staff and case study research of the three shelters Entering into significant debates in social theory over religion agency cognitive action and culture this book is important reading for scholars and students in religious studies sociology and social work **Coming**

Together/coming Apart Elizabeth M. Bounds,1997 While the idea of community is increasingly vital to our individual and social well being our ordinary communal relations are being eroded by increased mobility lost traditions and the growing pluralism of society Examining this renewed desire for community Coming Together Coming Apart locates the current problems in modern capitalism Out of a common matrix of a lifeworld in crises contemporary religious social and feminist discussions compose an ideological struggle over the reformation of society Bounds analyzes a broad range of theorists from Daniel Bell and Stanley Hauerwas to Sharon Welch and Cornel West In comparing their arguments about community she illustrates critical assumptions about the roles of morality and religion including the values of difference the diversity of traditions and the nature of moral connection *Community as Church, Church as Community* Michael Plekon,2021-07-22 Parishes of all denominations are in decline shrinking closing dying We know that there are increasing numbers young and older who are religious nones and donees This book explores why the decline is taking place why the distancing is going on But it goes on to examine parishes from all over the country and from various church bodies that are resurrecting The central theme of death and resurrection shapes the analysis of parishes covered Parishes are resurrecting by reinventing their ministries by repurposing their building to better serve their neighborhoods thus replanting and reconnecting with them All of this is the Spirit s doing but through the community of sisters and brothers who make up each congregation of faith Community as the core of church is the other reality shaping the book s reflection And community a parish being with those around living for more than its own survival are visions for going forward Other aspects of congregational life are also examined most importantly the pastors how they serve when budgets shrink how they are trained how pastors act with the community not above it No recipes are suggested for parish resurrection but the stories of the parishes that have revived bear within numerous lessons for us in the future *The Works of Orestes A. Brownson: Religion and society* Orestes Augustus Brownson,1883 *Community Identity* Sebastian Kim,Pauline Kollontai,2007-09-01 The understanding of identity in relation to community has been a focus of academic studies in recent years An exclusive self understanding of the identity of one s own community coupled with a hostile attitude toward other communities often leads to communal conflicts In particular it is important to notice the significance of religion in the re shaping of community identities in this process This volume focuses first on communal or corporate understanding of identity Secondly this volume will assess the topic of identity from the perspectives of theology and religious studies Thirdly the volume will seek to address the issue of interaction between religious communities and wider society by looking at case studies from the Yorkshire area **Religion and Community in the New Urban America** Paul D. Numrich,Elfriede Wedam,2015-03-16 Religion and Community in the New Urban America examines the interrelated transformations of cities and urban congregations The authors ask how the new metropolis affects local religious communities and what role those communities play in creating the new metropolis Through an in depth study of fifteen Chicago congregations Catholic parishes Protestant churches Jewish synagogues Muslim

mosques and a Hindu temple both city and suburban this book describes congregational life and measures congregational influences on urban environments Paul D Numrich and Elfriede Wedam challenge the view held by many urban studies scholars that religion plays a small role if any in shaping postindustrial cities and that religious communities merely adapt to urban structures in a passive fashion Taking into account the spatial distribution of constituents internal traits and external actions each congregation s urban impact is plotted on a continuum of weak to moderate to strong thus providing a nuanced understanding of the significance of religion in the contemporary urban context Presenting a thoughtful analysis that includes maps of each congregation in its social geographic setting the authors offer an insightful look into urban community life today from congregations to the places in which they are embedded

Jodhka,2011-03-01 By making religious community a relevant category for discussing development deficit the Sachar Committee Report that was submitted to the Prime Minister of India in 2007 initiated a new political discourse in India While the liberal secular framework privileged the individual over the community and was more inclined to use the category of class rather than the identity of religion the Sachar Committee differentiated citizens on the basis of their religious identity Its conclusions reinforced the necessity of approaching issues of development through the optic of religious community This volume focuses on this shift in public policy The articles in this collection examine the nature and implications of this new approach to the Indian social reality Taking a close look at the findings of the Sachar Committee Report SCR they highlight the challenges posed by inter community comparisons At another level the articles supplement the debate initiated by the SCR by constructing a profile of religious communities in India so as to factor in their concerns of development into the present discourse and to nuance and modify the simple indicators to which development is often reduced As most religious communities are themselves engaged in development related activities the volume also examines some of these initiatives in order to see what development connotes to the members themselves and what receives attention by the community Students of social sciences and development studies as well as those dealing with issues of marginalization will find this collection an invaluable resource for understanding contemporary India and for undertaking further theoretical and empirical research
