This book makes a new approach to Canadian politics from the administrative side It provides first a description of the evolution and structure of the administrative machine which with few fundamental changes still serves the Canadian nation and in the process it attempts to acknowledge and appraise the hitherto unsung contributions of the public servant to the welfare of a pioneer community A second objective is to disclose the presence in the pioneer public service of certain basic administrative issues which today still rise to perplex both the student and practitioner of public administration And finally this study reveals a neglected aspect of the winning of responsible government in Canada the author contends that the recognition of the constitutional principle on the political level did not in fact coincide with its practical implementation at the administrative level As Dr R MacGregor Dawson points out in his Foreword Few students on suspects appreciate how great has been the influence of the permanent officials in the years before Confederation nor do they have an adequate comprehension of the degree to which administrative decisions of those days both by Ministers and officials determined many of the present practices An astonishingly large number of the problems moreover will be found to have remained substantially the same for the past hundred years The scheme of departmental organization the delegation of authority and the allotment of responsibility the application of financial controls the intricate give and take between the political non technical Minister and the technically trained specialist these in some aspect or another have been the constant concern of the administrator a different time a different place has simply shifted the emphasis a little one way or the other Professor Hodgetts writes with humour and point his book is a brilliant addition to the Canadian Government Series in which it is the seventh volume to appear Indianisation of All-India Services and Its Impact on Administration J. D. Shukla,1982 Survey covers the period 1834 1947 *Canadian Books in Print* ,1973 *Research Paper* ,1977 *Racism Or Responsible Government* Elizabeth Abbott Gibbs,1967 *Canadian History: Beginnings to Confederation* Martin Brook Taylor,Doug Oworm,1994 In these two volumes which replace the Reader s Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover *The Historiography of the British Empire-Commonwealth* Robin W. Winks,1995 In this volume of 22 essays by a range of leading academics a substantial attempt has been made to examine the body of published historical literature relating to the British Empire and Commonwealth The main purpose of the essays is threefold to provide individually and collectively a critical assessment and survey of the literature available up to 1966 to explain how this literature has developed and to act as a guide to subsequent research This wide ranging and detailed survey continues to remain of central importance to students academics and librarians alike and benefits from a new introduction by Robin Winks Catalogue of the Colonial Office Library, London Great Britain.
