Pioneer Merchant James Graham, Sally Graham, 1985 **The Boyds** Brenda Niall, 2007 The Boyd family is Australia's most remarkable artistic dynasty This work traces the emergence of an extraordinary artistic tradition It places the Boyds in their historical and personal contexts tells the interwoven stories of their brilliant careers and analyses the shaping influences on their lives Redmond Barry Ann Galbally, 2013-04-01 Sir Redmond Barry was the pre eminent figure in Melbourne of the middle years of last century A Supreme Court judge for thirty years he was the founding and sustaining force behind the University of Melbourne the Supreme Court Library the Public Library the National Gallery and the Museum As social and cultural benefactor he stands alone Paradox pervaded his life While seen by many as a hidebound even villainous judge his trust in the rule of law underpinned for example an unusually sympathetic and active response to the Aboriginal people Yet fear of losing social standing and his Irish family's esteem blinkered him to injustice on his own doorstep The story of his unacknowledged relationship of thirty years with Louisa Barrow and of their four illegitimate children is perplexing and often painful in the telling This important biography is long overdue **Gold Seeking** David Goodman, 1994 The brave independence of the roaring days the camaraderie of the gold fields jolly diggers on a spree these are the images that have come down to us of the gold era of the 1850s in Australia and California But these images were largely shaped decades later by writers such as Henry Lawson and Bret Harte they speak of later nostalgia rather than the experience of the time In this study of the contemporary response to the discoveries of gold in Victoria and California David Goodman argues that people at the time were apprehensive about gold rushing and the kind of society it seemed to prefigure In the chaos of the gold rushes individual self interest seemed to be all that could motivate people to any exertion And it was only the economic rationalists of the day those who believed in political economy and its promise that out of the confusion of individual self interest would come some sort of social order who could wholeheartedly endorse the gold rushes as events This is a history of the ways people talked about gold As the first full length cultural history of the gold rushes on two continents it examines the meanings of gold at the time and the narratives which were told about social disruption It locates the deeper underlying themes in the response to gold It also looks at the ways in which the dominant later memories of gold were shaped And it is about national differences about the construction of distinctive national cultures out of materials common to the British world This book should be read not only by Australian and American historians but by anyone with an interest in the cultural history of modernity BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Martin Boyd* Brenda Niall, 2004-06-15 Martin Boyd was one of the generation whose lives were changed by World War I He served in a British regiment survived the trenches in 1916 17 and joined the Royal Flying Corps The pacifist beliefs which emerged from that war experience are central to his fiction as they were to his life Boyd's was a complex personality witty generous sociable yet deeply reserved He looked for his home of the spirit in many places an
