London's 'Big Bang' Moment and its Architectural Conversations Stephen Rosser, 2025-06-30 This book explores the topic of architecture as a component of public discourse focussing on the reception of four high profile developments in the City of London the UK capital s financial district dating from the final years of the twentieth century During this time the City s mode of operation culture and built environment were all transformed as a result of the market deregulation process labelled Big Bang It was also a period which saw the subject of architecture attracting public and media attention becoming a prominent feature of national conversation The book examines the extensive and often contentious discourse generated by the four case study projects It looks at how these projects were viewed and interpreted retrospectively when they had become part of the City s long and rich history Topics explored include building and urban form on the eve of the millennium the place of new development in a setting of unique historic importance the iconic building and celebrity architect and the role of then Prince Charles as an architectural critic Also referenced are many of the broader issues of the day including the Thatcher government policies and the preoccupations concerning London s infrastructure public realm inner city areas and inequalities Furthermore ranging across the discourse is the theme of the relationship between buildings and global finance foreshadowing later controversies concerning London s post millennial towers and their impact on the capital s skyline The book will be of interest to researchers and students of late twentieth century British architecture and urban development London s history and UK public discourse in the 1980s a decade of profound political economic and social change

Shaping the Surface Stephen Kite, 2022-11-17 Shaping the Surface explores the history of modern British architecture through the lens of surface materiality and decoration Picking up on a trait that art historian Nikolaus Pevsner first identified as a national mania for beautiful surface quality this book makes a new contribution to architectural history and visual culture in its detailed

examination of the surfaces of British architecture from the middle of the 19th century up to the turn of the 21st century Tracing this continuing sensibility to surface all the way through to the modern era it explores how and why surface and materiality have featured so heavily in recent architectural tradition examining the history of British architecture through a selection of key cultural moments and movements from Romanticism and the Arts and Crafts to Brutalism High Tech Post Modernism Neo Vernacular and the New Materiality Embedded within the narrative is the question of whether such national characters can exist in architecture at all and indeed the extent to which it is possible to identify a British architectural consciousness in an architectural tradition characterised by its continuous importation of theories ideas materials and people from around the globe Shaping the Surface provides a deep critique and meditation on the importance of surface and materiality for architects designers and historians everywhere in Britain and beyond while it also serves as a thematic introduction to modern British architectural history with in depth readings of the works of many key British architects artists and critics from Ruskin and William Morris to Alison and Peter Smithson Eduardo Paolozzi Richard Rogers and Caruso St John
