Has there always been an inalienable right to have rights as part of the human condition as Hannah Arendt famously argued The contributions to this volume examine how human rights came to define the bounds of universal morality in the course of the political crises and conflicts of the twentieth century Although human rights are often viewed as a self evident outcome of this history the essays collected here make clear that human rights are a relatively recent invention that emerged in contingent and contradictory ways Focusing on specific instances of their assertion or violation during the past century this volume analyzes the place of human rights in various arenas of global politics providing an alternative framework for understanding the political and legal dilemmas that these conflicts presented In doing so this volume captures the state of the art in a field that historians have only recently begun to explore **Teaching Difficult History through Film** Jeremy Stoddard,Alan S. Stearns, 2012-05-04 Defended by a host of passionate advocates and organizations certain standard human rights have come to represent a quintessential component of global citizenship There are however a number of societies who dissent from this orthodoxy either in general or on particular issues on the basis of political necessity cultural tradition or group interest Human Rights in World History takes a global historical perspective to examine the emergence of this dilemma and its constituent concepts Beginning with premodern features compatible with a human rights approach including religious doctrines and natural rights ideas it goes on to describe the rise of the first modern style human rights statements associated with the Enlightenment and contemporary antislavery and revolutionary fervor Along the way it explores ongoing contrasts in the liberal approach between sincere commitments to human rights and a recurrent sense that certain types of people had to be denied common rights because of their perceived backwardness and need to be civilized These contrasts find clear echo in later years with the contradictions between the pursuit of human rights goals and the spread of Western imperialism By the second half of the 20th century human rights frameworks had become absorbed into key global institutions and conventions and their arguments had expanded to embrace multiple new causes In today's postcolonial world and with the rise of more powerful regional governments the tension between universal human rights arguments and local opposition or backlash is more clearly delineated than ever but no closer to satisfactory resolution **Report of the Pioneer Society of the State of Michigan**, 1884 **History of Woman Suffrage** Susan Brownell Anthony, Elizabeth Cady Stanton, Matilda Joselyn Gage, 1886 *The Firelands Pioneer*, 1891 *The illustrated history of the world, for the English people* World, 1881
