Pioneers Progress Illinois College 1829 1979:

Pioneer's Progress Charles Edward Frank, 1979 Celebrating the sesquicentennial of Illinois College Old Illinois the oldest college in Illinois this perceptive history provides an account to which students will turn for the light it casts on the growth of higher education in the Middle West and the development of high ideals of Christian education alluded to in the book's title Illinois College is fortunate indeed in having its history so ably written first by Charles H Rammelkamp the College's fifth president 1905-32 on whose centennial history Charles E Frank a longtime faculty member here builds Brilliantly abridging Rammelkamp's earlier work which forms the first part of this book Dr Frank proceeds systematically to recount and evaluate the College's eventful past fifty years Recalling Evangelist's charge to Christian in Pilgrim's Progress keep the light in your eye and go up directly thereto Dr Frank sympathetically but resolutely interprets the history of this small college in the Mississippi Valley His is however a pilgrimage of ideas and his account though of growth and of buildings never loses sight of the College's beginnings or of its progress Routledge Library Editions: Higher Education Various, 2021-03-29 The volumes in this set originally published between 1964 and 2002 draw together research by leading academics in the area of higher education and provide a rigorous examination of related key issues The volume examines the concepts of learning teaching student experience and administration in relation to the higher education through the areas of business sociology education reforms government educational policy business and religion whilst also exploring the general principles and practices of higher education in various countries This set will be of particular interest to students and practitioners of education politics and sociology

The Campus and a Nation in Crisis Willis Rudy, 1996 This book demonstrates how colleges and universities have played a vital role during times of great crisis in American history responding actively and helpfully to all the major challenges confronting their country The colleges of the land became politicized repeatedly by such momentous developments as the American Revolution the Civil War between the North and the South the two vast global conflicts of the twentieth century and America's controversial involvement in Southeast Asia Campus life became intensely fractious during these difficult and turbulent periods Violence sometimes accompanied the campus activism While there were significant differences in the response of groups on the campuses students and professors reacted differently for example to the crises of earlier times as compared to those in more recent years there is an element of continuity That thread of continuity from the Revolutionary era to Vietnam was the fact that time after time the members of the academic communities sought to resolve the nation's crises constructively They rallied to the cause of colonial rights and ultimately political independence They supported the aims of their embattled sections North and South They sought to influence their nation's responses to the global crises of the twentieth century And they campaigned to extricate the nation from an increasingly costly military entanglement in Southeast Asia In all five of these tests of national purpose the colleges and universities while not the ultimate decision makers helped shape the eventual patterns of America's response in an important way Religious

Colleges and Universities in America Thomas Hunt, James Carper, 2018-10-10 Originally published in 1988 Religious Higher Education in the United States is a selected bibliography of sources addressing how religion has changed and affected education in the United States This volume attempts to address the problems currently facing religious institutions of higher education covering government aid and the regulation of religious colleges and universities in the US

James F. Jaquess Patricia B. Burnette, 2013-03-29 Tall handsome and charismatic James Jaquess impressed men and charmed ladies who knew him as a preacher a college president or colonel of an Illinois regiment In 1864 he and James Gilmore talked to Jefferson Davis about terms of peace Lincoln recognized his many abilities and invited Jaquess to serve as one of his personal agents But after the Civil War ended this biography reveals Jaquess life changed for the worse He was tried in Kentucky for the death of a woman and failed as a carpetbagger in Arkansas and Mississippi Then he convinced his family and friends in Indiana and numerous residents of New York to invest in Lawrence Townley bonds and share in a fortune waiting in England This venture ended in poverty for him and a sentence in a British prison When he returned to America for his final years Jaquess still held the respect of the men of the 73rd Infantry and the affection of the women who knew him as president of their college in Jacksonville His misadventures having turned his black hair to white he still possessed the charisma that had led to his national fame
