Illustrated by Louis S. Glanzman Astrid Lindgren,1957 Beyond Babar Sandra L. Beckett,Maria Nikolajeva,2006-08-19 All too often attention is paid only to those children s novels that were written in English with non English language works being passed over and neglected Beyond Babar The European Tradition in Children s Literature examines eleven of the most celebrated European children s novels in substantial critical essays written by well known international scholars This approach provides a comprehensive discussion of the selected works from a variety of theoretical perspectives Each essay offers a critical introduction to the text that can serve as a point of departure for literary scholars professors of children s literature primary and secondary school teachers and librarians who are interested in texts that cross languages and cultures Beyond Babar is especially meant to assist instructors of children s literature who would like to use these texts in the classroom in order to begin to redress the English language dominance of many children s literature courses This volume will also be of interest to the general public as its ultimate aim is to bring to the attention of all English speaking readers the literature from other parts of the world in this case from Europe Beyond Babar helps to facilitate the border crossings of these European masterpieces of children s literature into the English speaking world *Weekly Reader Books Presents Pippi Goes on Board* Astrid Lindgren,1985

From Mythic to Linear Maria Nikolajeva, 1991-01-01 Now available in paperback In this radically new approach to text typology Maria Nikolajeva examines the depiction of time in literature for children Nikolajeva identifies a continuum of texts ranging from those that depict non linear time typical of archaic or mythical thought to those that express linearity typical of contemporary mainstream literature The author argues that literature is a deconstruction a displacement of myth and that it depicts a symbolic coming of age process rather than a strictly representational reflection of a concrete reality The texts are categorized by the degree to which the coming of age process is accomplished the movement is from an initial condition of primary harmony Arcadia Paradise Utopia through different stages toward either a successful or a failed passage From Mythic to Linear is a broad study encompassing a number of children's novels from different epochs and countries Scandinavian British American Canadian Australian South African and East European The international character contributes a better knowledge of children's literature from different parts of the world widening the horizons of children's literature research too often confined to one particular country Nikolajeva's unique approach allows her to disregard the traditional and some would argue obsolete division of children's novels into realism and fantasy With its unique approach and broad international scope From Mythic to Linear will be of interest to all those interested in children's literature and in comparative literature in general Includes bibliography and footnotes
