PIRATE ATTACK Tom' Tips on Security, Safety & Scams for Round the World Sailors. i TOM Bennett ,2016-06-30

Mejia, Jr.,Chie Kojima,Mark Sawyer,2013-11-22

Over more than three decades starting in the 1990s thousands of robberies acts of piracy and other violent attacks against merchant vessels have been reported in many of the world s waters The grave danger of piracy poses a direct threat not only to the security and efficiency of marine transportation but more seriously to the lives of the men and woman carrying out this important function This book collates ideas brought up by seafarers shipowners industry practitioners government officials academics and researchers exchanged views and insights on the complex web of underlying factors behind the phenomenon of piracy Piracy at Sea brings together a wide spectrum of maritime stakeholders who present different aspects of the problem in an open manner and share their thoughts on how to deal with a truly complex situation It encapsulates this collective wisdom in a publication that can serve as an easy reference for practitioners as well as researchers and hopefully contribute to more concrete action *Global Piracy* James E. Wadsworth,2019-03-07

Many people in the western world maintain the contradictory notions that the pirates of old were romantic social bandits while their modern brethren are brutal thugs thieves and villains In *Global Piracy* James E Wadsworth compiles and contextualizes a wealth of primary source documents which illustrate the global phenomenon of piracy through the eyes and voices of those who experienced it both the pirates or privateers themselves and their victims The book allows us to confront our stereotypes by giving us access to real pirates in a wide range of historical periods and global regions from ancient Greece to modern day Nigeria unfiltered as much as possible by authorial voice or interpretation *Global Piracy* seeks neither to romanticize nor vilify pirates but simply to understand them in the context of their times and the broader world they inhabited Departing from run of the mill narratives it selects documents which provide new and fascinating insights into piracy around the globe With documents introduced by contextual information and supplemented by study questions suggested reading lists illustrations and maps this book is an essential companion for anyone studying the history of piracy
