British Columbia focuses on Tolstoi's novel Petr Pervyi Peter the First and some other works in order to question that assertion. He argues that Tolstoi demonstrated a heightened sense of history and tried to make sense of contemporaneous events by studying periods he viewed as analogous. It is suggested that Petr Pervyi was written as an analogy to Stalin and that Tolstoi truly saw both men as necessary leaders for creating great change. Annotation copyrighted by Book News Inc. Collective Body Christina Kiaer, 2024-03-19 Dislodging the avant garde from its central position in the narrative of Soviet art. Collective Body presents painter Aleksandr Deineka's haptic and corporeal version of Socialist Realist figuration not as the enemy of revolutionary art but as an alternate experimental aesthetic that at its best activates and organizes affective forces for collective ends. Tracing Deineka's path from his avant garde origins as the inventor of the proletarian body in illustrations for mass magazines after the Revolution through his success as a state sponsored painter of monumental lyrical canvases during the Great Terror and beyond, Collective Body demonstrates that Socialist Realism is best understood not as a totalitarian style but rather as a fiercely collective art system that organized art outside the market and formed part of the legacy of the revolutionary modernisms of the 1920s. Collective Body accounts for the way the art of the October Revolution continues to capture viewers' imaginations through the sheer intensity of its evocation of the elation of collectivity, making viewers not only comprehend but also truly feel socialism and retaining the potential to inform our own art into life experiments within contemporary political art. Deineka figures in this study not as a singular master in the spirit of a traditional monograph but as a limited case of the system he inhabited and helped to create.
