Construyendo foco 2,0 Martin Roberto Repetto Alcorta,2021-05-19 La Teoría de las Restricciones TOC es uno de los aportes teóricos más sustanciosos de los últimos años. Lamentablemente y quizás por falta de marketing sus herramientas y aplicaciones prácticas permanecen desconocidas para el público masivo. De alguna manera TOC a nivel es una manera de trabajar que se comparte profesional a profesional entre quienes hemos tenido la suerte de toparnos con los libros del Dr Eli Goldratt. Martin Repetto Alcorta es particularmente uno de los pioneros de estas lecturas aplicadas a la industria de la construcción argentina. Entusiasta buscador de nuevos aportes teóricos para resolver el clásico problema de la mano artesanal de las industrias, Martin ha ido creando su propio camino. Cada nuevo libro que llega a sus manos supone el desafío de integrarlo al corpus que viene realizando, hacerle cosas y que generosamente brinda en sus libros y sobre todo en las diversas capacitaciones que realiza en la Universidad, en su consultoría privada y en la Escuela de Gestión de la Construcción en la Cámara Argentina de la Construcción. Cada nuevo texto impacta directamente en su labor de Director de Obra proponiendo mejoras tanto al comitente como al constructor. He tenido el placer de leer muchos de los escritos que aparecen en este volumen y en el anterior. En todos hay palabras de sabiduría práctica para aquel que quiera transformar su trabajo en la industria. Con estas lecturas se comprueba que nada mejor para la práctica que una buena teoría. *FLUYE. DESACTIVA TUS RESTRICCIONES* REPETTO ALCORTA MARTIN ROBERTO,2025-01-14 Este libro está dirigido a todas aquellas personas que quieren descubrir su misión en la vida, ser felices, modificar su realidad, optimizar sus relaciones, vivir el presente, mejorar y fluir con la vida, superar sus limitaciones, eficientizar su trabajo y sus organizaciones y resolver los conflictos de siempre, esos que las mantienen tristes, angustiadas y estancadas. Es un libro que versa sobre la optimización de los sistemas de cualquier tipo que estos sean. Pero más que nada es un libro de sabiduría en el que fuimos recopilando el pensamiento de personas notables, filósofos, escritores, científicos, religiosos, grandes políticos y maestros de la vida, junto a frases célebres que viven en el acervo popular para aplicarlo a las situaciones comunes que experimentamos día a día. A través del pensamiento de estos grandes hombres y la aplicación de las herramientas de TOC descubriremos juntos la simplicidad inherente que subyace a los sistemas complejos con los que usted interactúa. Hallaremos juntos soluciones simples a sus problemas de siempre. El contenido de este libro le permitirá mejorar su habilidad de tomar mejores decisiones a través de traer al plano consciente los supuestos ocultos que sostienen el dilema que subyace a cualquier problema. Pero por sobre todo le permitirá adoptar la actitud correcta en cada una de las situaciones que deba enfrentar.
