*Pistis Sophia* is an important Gnostic text discovered in 1773 possibly written between the 3rd and 4th centuries AD The remaining manuscript which scholars place in the late 4th century relates the Gnostic teachings of the transfigured Jesus to the assembled disciples including his mother Mary Mary Magdalene and Martha when the risen Christ had accomplished eleven years speaking with his disciples In it the complex structures and hierarchies of heaven familiar in Gnostic teachings are revealed The text proclaims that Jesus remained on earth after the resurrection for 11 years and was able in this time to teach his disciples up to the first i e beginner level of the mystery It starts with an allegory paralleling the death and resurrection of Jesus and describing the descent and ascent of the soul It then proceeds to describe important figures within the Gnostic cosmology and then finally lists 32 carnal desires to overcome before salvation is possible The female divinity of Gnosticism is Sophia a being with many aspects and names She is sometimes identified with the Holy Spirit itself but

according to her various capacities is also the Universal Mother the Mother of the Living or Resplendent Mother the Power on High She of the left hand as opposed to Christ understood as her husband and he of the Right Hand as the Luxurious One the Womb the Virgin the Wife of the Male the Revealer of Perfect Mysteries the Holy Dove of the Spirit the Heavenly Mother the Wandering One or Elena that is Selene the Moon She was envisaged as the Psyche of the world and the female aspect of Logos     The Fall of Sophia Violet MacDermot,2001-11 There is a delicate distinction between these two sentences To find the others in oneself and To find oneself in the others In the higher sense it means You are that Tat tsvam asi Above all in the highest sense it means to recognize oneself in the world and to understand that saying of Novalis from The Disciple at Sais One was successful He lifted the veil of the goddess at Sais But what did he see Miracle of miracles He saw himself To find oneself not in egoistic inwardness but selflessly in the outer world that is true self knowledge Rudolf Steiner Rudolf Steiner is perhaps best known for his influence and wisdom in the fields of education agriculture medicine science and art It is often forgotten that it was as a spiritual teacher that he made these contributions Unfortunately while his immediate students had the advantage of Steiner as a personal guide to their inner lives later readers have had only his written works to guide them Steiner however did give a few lectures on inner development especially on beginning a path of practice This book now collects these lectures some of which have never been in English for the first time It also contains a number of the basic meditations and exercises shared by Steiner with his students Here readers will find descriptions of various practical exercises including exercises for the moral qualities that students must develop and for the various qualities of consciousness that inner development requires This book is not only for beginners Wherever you are on the path this book will be your companion     *Pistis Sophia: The Gnostic Text of Jesus, Mary, Mary Magdalene, Jesus, and His Disciples* G.
