**Pittsburgh: the Story of a
Leben in zwei Welten**

Margit Herfarth, 2014-05-06 Im Jahr 1849 entsandte Theodor Fliedner vier Diakonissen in die USA und gab damit den Impuls zur Entstehung einer zwar nicht immer erfolgreichen aber ungeheuer vielfältigen amerikanischen Diakonissenbewegung. Diese war geprägt durch den wirtschaftlich gesellschaftlichen Wandel des späten 19. Jahrhunderts, die Frauenbewegung und die Entstehung der professionellen Krankenpflege und Sozialarbeit. Die amerikanische Diakonissenarbeit ist vor allem aber auch ein Teil deutsch-amerikanischer Kultur, eng verknüpft mit der Geschichte der deutschen Amerika-Auswanderung. Wie wurde das Kaiserswerther Modell interpretiert, amerikanisiert und verändert? Die vorliegende Studie geht diesen Fragen unter einer bewusst transatlantischen Perspektive nach und untersucht sowohl die Geschichte einzelner Institutionen als auch individuelle Biographien.

The Making of Urban America Raymond A. Mohl, Roger Biles, 2023-10-03 The revised and updated third edition of *The Making of Urban America* includes seven new articles and a richly detailed historiographical essay that discusses the vast urban history literature added to the canon since the publication of the second edition. The authors extensively revised introductions and the fifteen reprinted articles trace urban development from the preindustrial city to the twentieth century city. With emphasis on the social, economic, political, commercial, and cultural aspects of urban history, these essays illustrate the growth and change that created modern day urban life. Dynamic topics such as technology, immigration, and ethnicity, suburbanization, sunbelt cities, urban political history, and planning and housing are examined. *The Making of Urban America* is the only reader available that covers all of U.S. urban history and that also includes the most recent interpretive scholarship on the subject.

Cityscapes in History Heléna Tóth, 2016-05-23 *Cityscapes in History: Creating the Urban Experience* explores the ways in which scholars from a variety of disciplines—history, history of art, geography, and architecture—think about and study the urban environment. The concept *cityscapes* refers to three different dynamics that shape the development of the urban environment: the interplay between conscious planning and organic development; the tension between social control and its unintended consequences; and the relationship between projection and self-presentation as articulated through civic ceremony and ritual. The book is structured around three sections, each covering a particular aspect of the urban experience. *The City Planned* looks at issues related to agency, self-perception, the transfer of knowledge, and the construction of space. *The City Lived* explores the experience of urbanity and the construction of space as a means of social control. And finally, *The City as a Stage* examines the ways in which cultural practices and power relations shape and are in turn shaped by the construction of space. Each section combines the work of scholars from different fields who examine these dynamics through both theoretical essays and empirical research and provides a coherent

framework in which to assess a wide range of chronological and geographical subjects Taken together the essays in this volume provide a truly interdisciplinary investigation of the urban phenomenon By making fascinating connections between such seemingly diverse topics as 15th century France and modern America the collection raises valuable questions about scholarly approaches to urban studies **Encyclopedia of American Urban History** David Goldfield,2007 Publisher description The Evolution of Transportation in Western Pennsylvania ,1994 **A Gift of Belief** Kathleen W. Buechel,2021-06-01 Philanthropy has long been associated with images of industrial titans and wealthy families In Pittsburgh long a center for industry the shadows of Carnegie Mellon Frick and others loom especially large while the stories of working class citizens who uplifted their neighbors remain untold For the first time these two portraits of Pittsburgh philanthropy converge in a rich historic tapestry The Gift of Belief reveals how Pittsburghers from every strata creed and circumstance organized their private resources for the public good The industrialists and their foundations are here but stand alongside lesser known philanthropists equally involved in institution building civic reform and community empowerment Beginning with sectarian philanthropy in the nineteenth century moving to scientific philanthropy in the early twentieth century and Pittsburgh Renaissance era institution building and concluding with modern entrepreneurship twelve authors trace how Pittsburgh aligned with led or lagged behind the national philanthropic story and explore how ideals of charity and philanthropy entwined to produce distinctive forms of engagement that has defined Pittsburgh s civic life The Western Pennsylvania Historical Magazine Charles William Dahlinger,1988 **Research Paper** University of Chicago.
