People and Education in the Third World W.T.S. Gould,2014-09-25 This text examines education and its role in Third World development Amongst the areas covered are the private and public demand for education global patterns of education the geography of educational provision the school and the community and education and population growth Beiträge zur historischen Sozialkunde ,1994 **Another Boom for Amazonia?** Jr. Penn,2010-05 This study examines the socioeconomic and environmental implications of the new camu camu industry in Peru Camu camu *Myrciaria dubia* is a small tree native to wetlands of the Amazon basin It is especially abundant in Peruvian Amazonia The high vitamin C content of the fruit has generated interest in exporting camu camu products from Amazonia to more developed countries The government of Peru has been actively promoting this new extractive industry as well as the planting of camu camu in rural areas Non governmental development organizations and private industry are now actively involved with camu camu projects and enterprises In Peru enthusiasm for this native species is high because camu camu is expected to provide a much needed and sustainable economic boost for the region However many questions about the environmental implications and socioeconomic impacts of the camu camu export industry need to be answered in order to understand its ecological and economic viability and its effects on business and in rural communities Winner of 2010 Dissertation Excellence Award Findings indicate that camu camu has provided significantly more income to rural residents than is provided by the traditional boom and bust economies of Amazonia Households who adopted camu camu as a new crop in their floodplain agroforestry systems farmed significantly more floodplain land than non adopters and were especially adept at experimenting with new innovations Lack of agricultural credit is a major constraint to adopting camu camu as a new crop in Peru Geographic isolation and the location of processing facilities in relation to fruit harvests present major obstacles to the economic viability of the new industry Camu camu was found to be cultivated with a higher diversity of annual crops than is typical in floodplain fields of the region Extraction of camu camu fruits from the wild does not appear to have a negative environmental impact at least in the initial years of the industry This non timber forest product in the process of domestication can support a viable industry in the Peruvian Amazon if agricultural extension methods and marketing channels are improved **Geography in America at the Dawn of the 21st Century** Gary L. Gaile,Cort J. Willmott,2004-02-05 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 48 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers Includes a foreword by the

eminent geographer Gilbert White **Internal Migration of Women in Developing Countries** United Nations.
