Place Of Morality In Foreign Policy:

The Place of Morality in Foreign Policy Felix E. Oppenheim, 1991 Oppenheim political science U of Massachusetts examines the question of when it is relevant and when not to judge relations between governments from a moral perspective He considers the state as actor national interest and nuclear weapons and cites examples from the Munich Pact to the Iraqi War Annotation copyrighted by Book News Inc Portland OR

Ethical Foreign Policy? Chih-Hann Chang, 2016-05-13 While the 1990s gave rise to a wealth of literature on the notion of ethical foreign policy it has tended to simply focus on a version of realism which overlooks the role of ethics in international affairs lacking an empirical analysis of foreign policy decision making with relation to ethical values in the post Cold War period This book addresses this gap in the literature by exploring ethical realism as a theoretical framework and in particular by looking at US humanitarian interventions at an empirical level to analyse ethical foreign policy in practice Furthermore it moves beyond the debate on legality or legitimacy of humanitarian interventions and focuses on whether a state would intervene for humanitarian purposes Chang provides a deeper understanding of ethical foreign policy in theory and practice by applying ethical realism as a theoretical framework to evaluate the Clinton administration s foreign policy on humanitarian intervention She addresses concepts of moral leadership and pragmatic foreign policy in the field of international relations in general and foreign policy analysis in particular

Analyzing Foreign Policy Crises in Turkey Fuat Aksu, Helin Sari Ertem, 2017-05-11 This collection explores foreign policy crises and the way the states leaders deal with them Being at the juncture of a highly sensitive political zone consisting of the Middle East Europe and Central Asia the Republic of Turkey has been the subject of various foreign policy crises since its foundation These political military economic or humanitarian crises were triggered either by the states themselves or by the NGOs and armed non state actors By examining literature in the field of foreign policy crises literature this volume scrutinizes some of the most prominent Turkish foreign policy crises Among these there are protracted crises such as that of Cyprus and the Aegean Sea a humanitarian one such as the 1989 migration of the Bulgarian Turks an NGO triggered crisis such as the Mavi Marmara Confrontation and an ongoing case such as the Syrian civil war Looking at these crises from various aspects the text sheds light on whether or how the reactions of the Turkish ruling elite change while trying to manage these crises The book is a timely contribution to literature in the field of Politics and International Relations and will be useful to academics diplomats and historians interested in foreign policy crises in general and Turkish foreign policy crises in particular

Security Studies for the 1990s Richard H. Shultz, Roy Godson, Ted Greenwood, 1993 The United States is grappling with a new security framework to replace the structure of the Cold War era American policymakers face a host of challenges

including regional conflicts ethnic tensions and weapons proliferation that commanded little attention in the past And tomorrow is likely to bring new concerns barely on today s horizon Despite these changes the study of national security remains largely a creature of the Cold War The security studies discipline needs to be overhauled But how should it be revised so that tomorrow s citizens and experts are equipped to understand and help manage new challenges One option is to downgrade security studies and divert educational resources elsewhere Another is to redefine the subject to include the study of an all encompassing list of international problems The third choice is to retain basic definitions concepts and subjects while also making significant adjustments Security Studies for the 1990s addresses all three options This book is the first to reexamine security studies in the post Cold War era Scholars and directors from leading security studies programs representing a cross section of viewpoints on foreign affairs discuss what new material needs to be taught and which courses and concepts should be recast Each chapter provides an indepth review of a major security studies course proposing needed changes and a model syllabus Subjects include intelligence policy global environmental problems the causes and termination of wars and collective security A chapter on the teaching of ethics a subject often neglected in the past is also featured BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
