## Places For Thinking:

**Orte des Denkens / Places of Thinking** Murat Ates, James Garrison, Georg Stenger, Franz Martin Wimmer, 2017-03-02 Denken geschieht an einem Ort. Zugleich gilt es zu bedenken, was einen Ort zum Ort werden lässt. Offenbar setzt also das Denken wie auch jedes Sprechen und Handeln einen Standort bzw. einen Standpunkt voraus, die selbst wiederum zum Thema philosophischer Betrachtung werden bzw. gemacht werden müssen. Dabei kann freilich Ort ein Mehrfaches bedeuten: etwa den Körper, die politische Schicht, den sozialen Status, das sozialisierte Geschlecht, die Sprache, kulturelle Geflechte, Lebenswelten und nicht zuletzt geographische Landschaften sowie geschichtliche Zeiträume. All dies sind je nach Konstellation Orte, die das Denken bedingen. Andererseits haben verschiedene Denkweisen in der Geschichte und Gegenwart immer wieder den Anspruch erhoben, universal zu agieren und in Unabhängigkeit von allen Milieus, Räumen, Zeiten, Sprachen, Geschlechtern usw. diese überschreiten zu können. Von dieser vielschichtigen Fragestellung ausgehend setzt der vorliegende Band diesseits interwie transkultureller Selbstverständigungen an. Anstatt jedoch von einer antagonistischen Gegenüberstellung auszugehen, wonach man sich einer der beiden Diskurslandschaften wie etwa Universalismus hier, Relativismus, Partikularismus dort anschließen hätte, wird hier vielmehr die Abhängigkeit und Reziprozität beider betont. In diesem Sinne und dies wäre der Leitfaden dieses Buches, bedeutet Orte des Denkens zugleich Denken des Ortes. *Thinking Space* Mike Crang, Nigel Thrift, 2002-09-11 As theorists have begun using geographical concepts and metaphors to think about the complex and differentiated world, it is important to reflect on their work and its impact on our thoughts on space. This revealing book explores the work of a wide range of prolific social theorists. Included contributions from an impressive range of renowned geographical writers each examine the work of one writer ranging from early this century to contemporary writers. Among the writers discussed are Georg Simmel, Mikhail Bakhtin, Gilles Deleuze, Hélène Cixous, Henri Lefebvre, Jacques Lacan, Pierre Bourdieu, Michel Foucault, and Franz Fanon. Ideal for those interested in the spatial turn in social and cultural theory, this fascinating book asks what role space plays in the work of such theorists, what difference if any it makes to their concepts, and what difference such an appreciation makes to the way we might think about space. *Heidegger and the Thinking of Place* Jeff Malpas, 2017-03-03 The philosophical significance of place in Heidegger's work and as the focus of a distinctive mode of philosophical thinking. The idea of place (topos) runs through Martin Heidegger's thinking almost from the very start. It can be seen not only in his attachment to the famous hut in Todtnauberg but in his constant deployment of topological terms and images and in the situated, placed character of his thought and of its major themes and motifs. Heidegger's work argues Jeff Malpas exemplifies the practice of philosophical topology. In *Heidegger and the Thinking of Place*, Malpas examines the topological aspects of Heidegger's thought and offers a broader elaboration of the philosophical significance of place. Doing so, he provides a distinct and productive approach to Heidegger as well as a new reading of other key figures, notably Kant, Aristotle, Gadamer, and Davidson, but also Benjamin Arendt and Camus. Malpas expands arguments

he made in his earlier book Heidegger's Topology MIT Press 2007 discusses such topics as the role of place in philosophical thinking the topological character of the transcendental the convergence of Heideggerian topology with Davidsonian triangulation the necessity of mortality in the possibility of human life the role of materiality in the working of art the significance of nostalgia and the nature of philosophy as beginning in wonder Philosophy Malpas argues begins in wonder and begins in place and the experience of place The place of wonder of philosophy of questioning he writes is the very topos of thinking

**Common spaces of urban emancipation** Stavros Stavrides, 2019-07-09 There is a growing discussion on the cultural meaning and politics of urban commons and Stavrides uses examples from Europe and Latin America to support the view that a world of mutual support and urban solidarity emerges today in against and beyond existing societies of inequality **The World of the Unseen** Arthur Willink, 1893

**Reasonable Children** Michael S. Pritchard, 1996 The public outcry for a return to moral education in our schools has raised more dust than it's dispelled Building upon his provocative ideas in *On Becoming Responsible* Michael Pritchard clears the air with a sensible plan for promoting our children's moral education through the teaching of reasonableness Pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills Reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community In such an environment children learn to work together to listen to one another to build on one another's ideas to probe assumptions and different perspectives and ultimately to think for themselves Advocating approaches to moral education that avoid mindless indoctrination and timid relativism Pritchard neither preaches nor hides behind abstractions He makes liberal use of actual classroom dialogues to illustrate children's remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility He also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state Pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers The result is a rich and insightful work that provides real hope for the future of our children and their moral education
