**Democratic Communications in the Information Age** Janet Wasko,Vincent Mosco,1992-09 This analysis begins with a discussion of theoretical issues involved in democratic participatory alternative and community communications In light of these concepts the authors explore various alternative developments in new communications and information technologies as well as various social movements in local national and international settings The issue to critical communications researchers is not just technology and its ability to process information but who owns it who controls it and who has access to it In short who presses the
