the important debates about key issues in the cultural history of the contemporary American West Neil Campbell introduces the ways in which the West has been represented and interpreted within American culture myth and ideology especially questioning the concept of the New West In so doing he looks at the way contemporary theories such as feminism multiculturalism and environmentalism can be used to revise long held notions of the West The book looks in turn at the ways the West has been represented in landscapes and environments art and photography film and literature Introduces theoretical ideas from Bakhtin Benjamin Foucault Deleuze and Guattari Looks at the landscape photography of Ansel Adams Mark Klett and Richard Misrach Explores Westerns including The Man Who Shot Liberty Valance Lonely are the Brave Unforgiven and Heaven s Gate Analyses the work of authors such as Cormac McCarthy Edward Abbey Terry Tempest Williams Raymond Chandler Includes Native American Leslie Marmon Silko Sherman Alexie and Gerald Vizenor and Chicano a Gloria Anzaldua and Sandra Cisneros literature As well as functioning as a survey text the book is original in its combining of ideas texts and materials rarely brought together and in its employment of the tools of cultural studies and interdisciplinary practice As such it will challenge the reader to reconsider conventional ideas about the American West Illustrated with black and white photographs this is an accessible and exciting intervention in one of the most popular aspects of American history

Education for Extinction David Wallace Adams, 1995 The last Indian War was fought against Native American children in the dormitories and classrooms of government boarding schools Only by removing Indian children from their homes for extended periods of time policymakers reasoned could white civilization take root while childhood memories of savagism gradually faded to the point of extinction In the words of one official Kill the Indian and save the man Education for Extinction offers the first comprehensive account of this dispiriting effort Much more than a study of federal Indian policy this book vividly details the day to day experiences of Indian youth living in a total institution designed to reconstruct them both psychologically and culturally The assault on identity came in many forms the shearing off of braids the assignment of new names uniformed drill routines humiliating punishments relentless attacks on native religious beliefs patriotic indoctrinations suppression of tribal languages Victorian gender rituals football contests and industrial training Especially poignant is Adams s description of the ways in which students resisted or accommodated themselves to forced assimilation Many converted to varying degrees but others plotted escapes committed arson and devised ingenious strategies of passive resistance Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama that the response of accommodation was not synonymous with cultural surrender This is especially apparent in his analysis of students who returned to the reservation He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men The discussion comes full circle when Adams reviews the government s gradual retreat from the assimilationist vision Partly because of persistent student resistance but also partly

because of a complex and sometimes contradictory set of progressive humanitarian and racist motivations policymakers did eventually come to view boarding schools less enthusiastically Based upon extensive use of government archives Indian and teacher autobiographies and school newspapers Adams s moving account is essential reading for scholars and general readers alike interested in Western history Native American studies American race relations education history and multiculturalism
