

Sample Business Plan for Acme Management Technology

1.0 Executive Summary

By focusing on its strengths, its key [customers](#), and the company's underlying core values, Acme Management Technology will increase sales to more than \$10 million in three years, while also improving the gross margin on sales and cash management and working [capital](#).

This business plan leads the way by renewing our vision and strategic focus of adding value to our target market segments—the small business and high-end home office users in our local market. It also provides a step-by-step plan for improving our sales, gross margin, and profitability.

This plan includes this summary, and chapters on the company, products & services, market focus, action plans & forecasts, management team, and financial plan.

1.1 Objectives

1. Sales increased to more than \$10 million by the third year.
2. Bring gross margin back up to above 25% and maintain that level.
3. Sell \$2 million of service, support, and training by 2022.
4. Improve inventory turnover to six turns next year, seven in 2021, and eight in 2022.

1.2 Mission

AMT is built on the assumption that the management of [information technology](#) for business is like legal advice, accounting, graphic arts, and other bodies of knowledge, in that it is not inherently a do-it-yourself prospect. Smart business people who aren't [computer hobbyists](#) need to find quality vendors of reliable hardware, software, service, and support and they need to use these quality vendors as they use their other professional service suppliers—as trusted allies.

AMT is such a vendor. It serves its clients as a trusted ally, providing them with the loyalty of a business partner and the economics of an outside vendor. We make sure that our clients have what they need in order to run their businesses at peak performance levels, with maximum efficiency and reliability.

Many of our information applications are mission-critical, so we assure our clients that we'll be there when they need us.
