Make money with sports betting 1 Lorenz Laplace,2021-10-15 Since 2019 this book exists in German now finally the English translation of this Buyer exists Lorenz Laplace succeeded in gaining a fortune of 20 000 EUR quite systematically through sports betting within three years with 1 000 EUR starting capital and many small bets with stakes of 20 50 EUR Laplace gives tips in easy to remember rules For example the main betting rule the tax favourites rule or the crass outsider rule The derivation of these tips is done in an understandable way and the calculations are very easy to follow The core of his strategy for betting is based on the following insight the probabilities for a sporting event cannot be calculated exactly So every betting provider errs in setting the odds Some odds are too low others are too high for the outcome It is only necessary to recognise in which direction the betting provider errs e g in favour of the underdog or the favourite The bettor s error is analysed with the help of a four point plan and then the bets are placed

naturally on the events that have received odds that are too high from the bettor In addition Lorenz Laplace gives other decisive tips e g how to optimally integrate promotions Deposit bonuses free bets cashback or combination bet insurance etc The book is a must for every betting enthusiast who wants to make long term profits with betting [The Everything Guide to Sports Betting](#) Josh Appelbaum,2019-02-05 Learn how to bet on sports safely smartly and responsibly and profit big with this easy to use guide perfect for beginners Betting money on sports can be great fun and is a sure way to turn any sports game into an exciting must watch event However it can be dangerous to the uninitiated new gamblers can risk too much bet randomly or even lose it all The Everything Guide to Sports Betting won t let that happen Filled with tips tricks and tactics this handy guide shows you how to place bets strategically You ll learn all of the different types of bets you can make how to spot a potentially profitable bet and when to walk away Covering all of the major sports leagues The Everything Guide to Sports Betting will introduce you to the sports betting world and show you how to beat the casinos at their own games In no time you ll be a gambling pro and cash in on some major wins *The Which? Guide to Gambling* Jonquil Lowe,Terry Clark,2003 Is gambling a way to get rich quick or the classic device for parting fools from their money The truth probably lies somewhere in the middle As this guide shows a little time and effort can improve the odds against losing [Probability Guide to Gambling](#) Catalin Barboianu,2006 Over the past two decades gamblers have begun taking mathematics into account more seriously than ever before While probability theory is the only rigorous theory modeling the uncertainty even though in idealized conditions numerical probabilities are viewed not only as mere mathematical information but also as a decision making criterion especially in gambling This book presents the mathematics underlying the major games of chance and provides a precise account of the odds associated with all gaming events It begins by explaining in simple terms the meaning of the concept of probability for the layman and goes on to become an enlightening journey through the mathematics of chance randomness and risk It then continues with the basics of discrete probability definitions properties theorems and calculus formulas combinatorics and counting arguments for those interested in the supporting mathematics These mathematic sections may be skipped by readers who do not have a minimal background in mathematics these readers can skip directly to the Guide to Numerical Results to pick the odds and recommendations they need for the desired gaming situation Doing so is possible due to the organization of that chapter in which the results are listed at the end of each section mostly in the form of tables The chapter titled The Mathematics of Games of Chance presents these games not only as a good application field for probability theory but also in terms of human actions where probability based strategies can be tried to achieve favorable results Through suggestive examples the reader can see what are the experiments events and probability fields in games of chance and how probability calculus works there The main portion of this work is a collection of probability results for each type of game Each game s section is packed with formulas and tables Each section also contains a description of the game a classification of the gaming events and the applicable probability calculations The primary goal of

this work is to allow the reader to quickly find the odds for a specific gaming situation in order to improve his or her betting gaming decisions Every type of gaming event is tabulated in a logical consistent and comprehensive manner The complete methodology and complete or partial calculations are shown to teach players how to calculate probability for any situation for every stage of the game for any game Here readers can find the real odds returned by precise mathematical formulas and not by partial simulations that most software uses Collections of odds are presented as well as strategic recommendations based on those odds where necessary for each type of gaming situation The book contains much new and original material that has not been published previously and provides great coverage of probabilities for the following games of chance Dice Slots Roulette Baccarat Blackjack Texas Hold em Poker Lottery and Sport Bets Most of games of chance are predisposed to probability based decisions This is why the approach is not an exclusively statistical one like many other titles published on this subject but analytical every gaming event is taken as an individual applied probability problem to solve A special chapter defines the probability based strategy and mathematically shows why such strategy is theoretically optimal
