**Public Men and Virtuous Women** Cecilia Louise Morgan, 1996 Gendered images and symbols were of central importance to public debate about loyalty political conflict and religious participation in early Ontario Drawing on a wide range of international scholarship in feminist theory women s and gender history and cultural studies Cecilia Morgan

analyses political and religious languages in the Upper Canadian press both secular and religious and other material published in the colony from the 1790s to the 1850s She examines constructs and concepts of gender in a wide number of areas narratives of the War of 1812 political struggles over responsible government in the 1820s and 1830s evangelical religious discourses throughout these decades and related discussions of manners and moral behaviour She also considers the relations between religion and politics in the 1840s pointing to the continuous struggles of Upper Canadians to define and fix the meanings of public and private and their use of masculinity and femininity to signify these realms She suggests as well that scholars of gender and colonial history need to consider a more nuanced way of understanding social formation in the colony through an examination of the representation of voluntary organizations The book also examines relations of gender class and race as they affected the cultural development of the middle class Morgan concludes that while seemingly hegemonic definitions of gender relations emerged over this period with men and masculinity identified with politics and loyalty to the colonial state and imperial connection and women and femininity linked to the home the meanings of gender and gendered imagery differed according to their contexts Colonial society's attempts to make sharp delineations between the public and the private were rarely successful and were marked by numerous tensions and contradictions

Material Memory Cornelius J. Jaenen, Cecilia Morgan, 1998 A collection of Canadian state papers speeches diary extracts newspaper articles oral histories photographs paintings and more which encourages critical thinking and spotlights issues in historiography Begins with Native societies prior to contact and ends with the Confederation of the Canadas Nova Scotia and New Brunswick in 1867      The Dominion of Women Wayne Fraser, 1991-01-30 Wayne Fraser's examination of the works of eighteen women writers in English Canada's history demonstrates how Canadian women's literature provides rich insight into the social and political development of the country Fraser approaches the subject as a literary critic arguing that these narratives were constructed within a certain social and political framework that resulted in a body of literature whose themes focus on the relationship of the individual to the larger community an essentially feminine orientation The study arranged chronologically from colonial times through the 1980s parallels women's personal experiences with Canada's political development In depth analyses of works of such notables as Frances Brooke Ethel Wilson and Margaret Atwood support Fraser's contention that the literature as a forum where women voiced their personal concerns regarding marriage

colonialism independence and feminism reflects and comments on Canada's political identity as a country with a continuing commitment to compromise cooperation and international peace A bibliography and general subject index complete this volume which will furnish historians and critics of women's literature with a new understanding of the topic
