Pioneers in Printing Seán Jennett, 1958 *Pioneers in Printing* Seán Jennett, 2025-09-24 Originally published in 1958 through a series of lively biographies of men important in the history of printing Gutenberg Caxton Baskerville Caslon Senefelder Koenig Mergenthaler and Lanston *Pioneers in Printing* traces the growth and development of the craft of printing from its invention in the fifteenth century to modern times The aim of the book is not to recount the technicalities of machinery but rather to present each character as a living man engrossed in his ideas and pursuing them persistently in conflict or in agreement with his period The book is written in a clear and easy style free of technical terms *Pioneers in Printing* SEAN. JENNETT, 1958 ***Pioneers in Printing* Seán Jennett, 1958** *A Catalogue of the Everett D. Graff Collection of Western Americana* Colton Storm, 1968 The Everett D Graff Collection of Western Americana consists of some 10 000 books manuscripts maps pamphlets broadsides broadsheets and photographs of which about half are described in the present catalogue The Graff Collection displays the remarkable breadth of interest knowledge and taste of a great bibliophile and student of Western American history From this rich collection now in The Newberry Library Chicago its former Curator Colton Storm has compiled a discriminating and representative Catalogue of the rarer and more unusual materials Book jacket *Pioneer Printer* Lota M. Spell, 2014-11-06 Samuel Bangs the first printer in the territory that is now Texas once owed his life to his printing press One of the few survivors of the Mina Expedition to Mexico in 1817 Bangs wrote to Servando de Mier I had the good fortune through the will of God to have my life saved as I was a printer Bangs was not always so fortunate Losses and disappointments plagued him throughout his career and he spent many miserable months in Mexican jails But his ingenuity in the face of adversity his courage and charm stamped him not only as a storybook hero but as a man whose virtues were large enough to be their own reward Lota Spell's fine biography of Samuel Bangs is at the same time a fascinating history of northern Mexico including Texas in the first half of the nineteenth century Through the successes and failures of an individual it presents the facts about the operation of a business during a time of important political and economic change Even more important is its contribution to our knowledge of printing and of the contemporary periodical press Although first of all a printer Samuel Bangs was also involved in the production of newspapers making this book a detailed history of journalism in the Mexico and Texas of his day His printing office also functioned as a typographer's school through which he instituted the apprentice system in the Southwest and as a result of his interest in presses as a commodity of trade the first business for merchandising and servicing printing presses in the area was developed This narrative combining the story of a man's life the history of his times and the development of his profession fills a gap in our knowledge of Mexico and Texas and does it with perception and charm *Directory of Publishers and Printers* National Library (Philippines).
