Indsay Skinner,1919 **Pioneers of the Old Southwest** Constance Lindsay Skinner,2020-05-12 The Ulster Presbyterians or Scotch Irish to whom history has ascribed the dominant role among the pioneer folk of the Old Southwest began their migrations to America in the latter years of the seventeenth century It is not known with certainty precisely when or where the first immigrants of their race arrived in this country but soon after 1680 they were to be found in several of the colonies It was not long indeed before they were entering in numbers at the port of Philadelphia and were making Pennsylvania the chief center of their activities in the New World By 1726 they had established settlements in several counties behind Philadelphia Ten years later they had begun their great trek southward through the Shenandoah Valley of Virginia and on to the Yadkin Valley of North Carolina There they met others of their own race bold men like themselves hungry after land who were coming in through Charleston and pushing their way up the rivers from the seacoast to the Back Country in search of homes

Creating Historical Memory Beverly Boutilier,Alison Prentice,2011-11-01 Canadian women have worked individually and collectively at home and abroad as creators of historical memory This engaging collection of essays seeks to create an awareness of the contributions made by women to history and the historical profession from 1870 to 1970 in English Canada Creating Historical Memory explores the wide range of careers that women have forged for themselves as writers and preservers of history within and on the margins of the academy The authors suggest some of the institutional and intellectual locations from which English Canadian women have worked as historians and attempt to problematize in different ways and to varying degrees the relationship between women and historical practice The authors raise many interesting questions about how gender influences historical consciousness and whether looking at the past through women's eyes alters the view Women engaged in history in a wide variety of ways as authors of fiction popular history juvenilia and drama as well as more academic research and publishing They worked as individuals as both professional writers and academics and within formal and informal communities of women such as

religious groups or local clubs The essays also talk about the barriers that existed for women who wanted to be recognized as historians and teachers of history and point out how gender differences have coloured perceptions of what constitutes history and who should write that history This anthology shows how instead of being intimidated or defeated by their marginalization women developed new and interesting ideas about what constituted history The final essay in the volume assesses the impact the burgeoning of feminist history in the 1970s had on the academy and examines the connection between feminist activism and women s history This original and lively book highlights the pioneering efforts of women in developing alternate paths to historical expression It makes an important contribution both to Canadian historical studies and to women s and gender history in the West and will appeal to scholars interested in Canadian history women s studies literature and historiography
