Pittsburgh Glass 1797 1891 A History And Guide For Collectors:

Glasshouses and Glass Manufacturers of the Pittsburgh Region Jay W. Hawkins, 2009-04 The Pittsburgh region while well known for steelmaking was likewise an important glass manufacturing center in this country's history This book provides detailed accounts of the region's glassmakers from the first factory dating to 1795 through 1910 Glassmaking started out modestly with small glasshouses in Pittsburgh and up the Monongahela River in New Geneva during the final few years of the 18th century By the close of the 19th century the Pittsburgh region was producing more than half of all domestic window glass and the lion's share of most other forms of glass in the United States The original purpose of this manuscript was to assemble and record as accurately as possible the history of all of the glassworks and the glass manufacturers that operated them in Pittsburgh and the immediate surrounding region This book was designed to be a reference guide for anyone who is interested in the history of glass in western Pennsylvania The years companies were operating where the glassworks were located what types of glass and specific glass items did they make and what marks did they use is just some of the information that can be found in this book There are hundreds of individual companies and name changes listed in this volume It contains as much information about each company that could practically be included Even the most minor name or address change was recorded exactly as noted by contemporary sources As much as possible contemporary reference sources such as city directories early newspapers maps and journals were used to provide accurate and complete histories of the glasshouses Generally the better known companies will have much more of their history available However every known glassmaker and glasshouse was included regardless of how little information about them could be found This book is intended to aid researchers in the determination of the age and the origin of marked pieces as well as narrowing down potential manufacturers of unmarked objects The liberal reproduction of original advertisements and maps as well as the photographs of glass marks were included to complement and augment the narrative The format of this book was established to facilitate its use as a reference guide *Pittsburgh Glass, 1797-1891* Lowell Innes, 1976 [Encyclopedia of Library and Information Science](#) Allen Kent, Harold Lancour, Jay E. Daily, 1982-01-29 The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes This thorough reference set written by 1300 eminent international experts offers librarians information computer scientists bibliographers documentalists systems analysts and students convenient access to the techniques and tools of both library and information science Impeccably researched cross referenced alphabetized by subject and generously illustrated the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field

American Glass John Stuart Gordon, 2018-01-01 Glass can be decorative or utilitarian and its forms often reflect technological innovations and social change Drawing on an insightful selection from the Yale University Art Gallery and other collections at Yale American Glass illuminates the vital and often intimate roles that glass has played in the nation's art and

culture Spectacularly illustrated the publication showcases eighteenth century mold blown vessels nineteenth century pressed glass innovative studio work and luminous stained glass windows by John La Farge and Louis Comfort Tiffany the latter reproduced as a lush gatefold These are considered alongside beguiling objects that broaden our expectations of glass and speak to the centrality of the medium in American life including one of the oldest complex microscopes in the United States an early Edison light bulb glass plate photography jewelry and more With an essay on the history of collecting American glass and discussions of each object that present new scholarship this engaging book tells the long and rich history of glass in America from prehistoric minerals to contemporary sculptures Dust jacket front flap Archeological Excavation at Site 33-Cu-314 Jeffrey J.
